

Data Book 1969

The AMX logo is a square divided into four triangles by a diagonal line from the top-left to the bottom-right. The top-left and bottom-right triangles are red, while the top-right and bottom-left triangles are blue. The letters "AMX" are written in white, bold, sans-serif font, slanted to follow the diagonal line.

AMX

The Ambassador logo is a square divided into four triangles by a diagonal line from the top-left to the bottom-right. The top-left and bottom-right triangles are red, while the top-right and bottom-left triangles are blue. The word "Ambassador" is written in white, bold, sans-serif font, slanted to follow the diagonal line.

Ambassador

The Rebel logo is a square divided into four triangles by a diagonal line from the top-left to the bottom-right. The top-left and bottom-right triangles are red, while the top-right and bottom-left triangles are blue. The word "Rebel" is written in white, bold, sans-serif font, slanted to follow the diagonal line.

Rebel

The Rambler logo is a square divided into four triangles by a diagonal line from the top-left to the bottom-right. The top-left and bottom-right triangles are red, while the top-right and bottom-left triangles are blue. The word "Rambler" is written in white, bold, sans-serif font, slanted to follow the diagonal line.

Rambler

The Javelin logo is a square divided into four triangles by a diagonal line from the top-left to the bottom-right. The top-left and bottom-right triangles are red, while the top-right and bottom-left triangles are blue. The word "Javelin" is written in white, bold, sans-serif font, slanted to follow the diagonal line.

1969 AMBASSADOR

Product Highlights

The 1969 Ambassador has the longest wheelbase ever produced by American Motors. The new length is found both in wheelbase (now 122", was 118") and overall length. The 4-door sedan and hardtop become 206.5" in overall length with the station wagons at 207". This new Ambassador wheelbase is expected to be at least 1" longer than that of the Chevrolet, Fury (except the Fury station wagon which may be longer) and Ford. The entire SST series features exterior wood-grain trim. A new SST wagon is offered with standard wood-grain side and rear paneling. Also, the SST 4-door sedan and station wagon feature a full body side wood-grain trim strip.

The new series lineup features this wagon.

Ambassador Series:

4-Door Sedan 6985-2

Ambassador DPL Series:

4-Door Sedan 6985-5

4-Door Station Wagon 6988-5

2-Door Hardtop 6989-5

Ambassador SST Series:

4-Door Sedan 6985-7

4-Door Station Wagon 6988-7

2-Door Hardtop 6989-7

The all-new front end sheet metal, grille, and bumper with new deck lid, tail lamps, and rear quarter panel end caps produce an entirely new appearance from all angles. This achieves the differences necessary to establish the Ambassador as an all-out entry into the "big-car" market. The entire line boasts a new, higher-capacity air-conditioning system as standard equipment. The delete option on air conditioning is still available. However, if air conditioning is deleted, the "Command Air" ventilation system is automatically substituted. This system utilizes all the air-conditioning outlets with a high-capacity, three-speed blower motor. The high-line identity is reinforced by the new custom velour interior trim options in the SST 4-door sedan and by the new wood-grain SST wagon. All Ambassador (and Rebel) wagons feature the new Dual-Swing tailgate as standard equipment. Also, all Ambassador two-seat wagons incorporate a new, larger underfloor storage compartment.

The "big-car" identity is further established through the new standard engine for the Ambassador and Ambassador DPL, the Torque-Command 232 CID, 155 HP engine with two-barrel carburetor. The SST maintains the Typhoon V-8 290 CID, 200 HP engine. However, this series now becomes standard with automatic transmission.

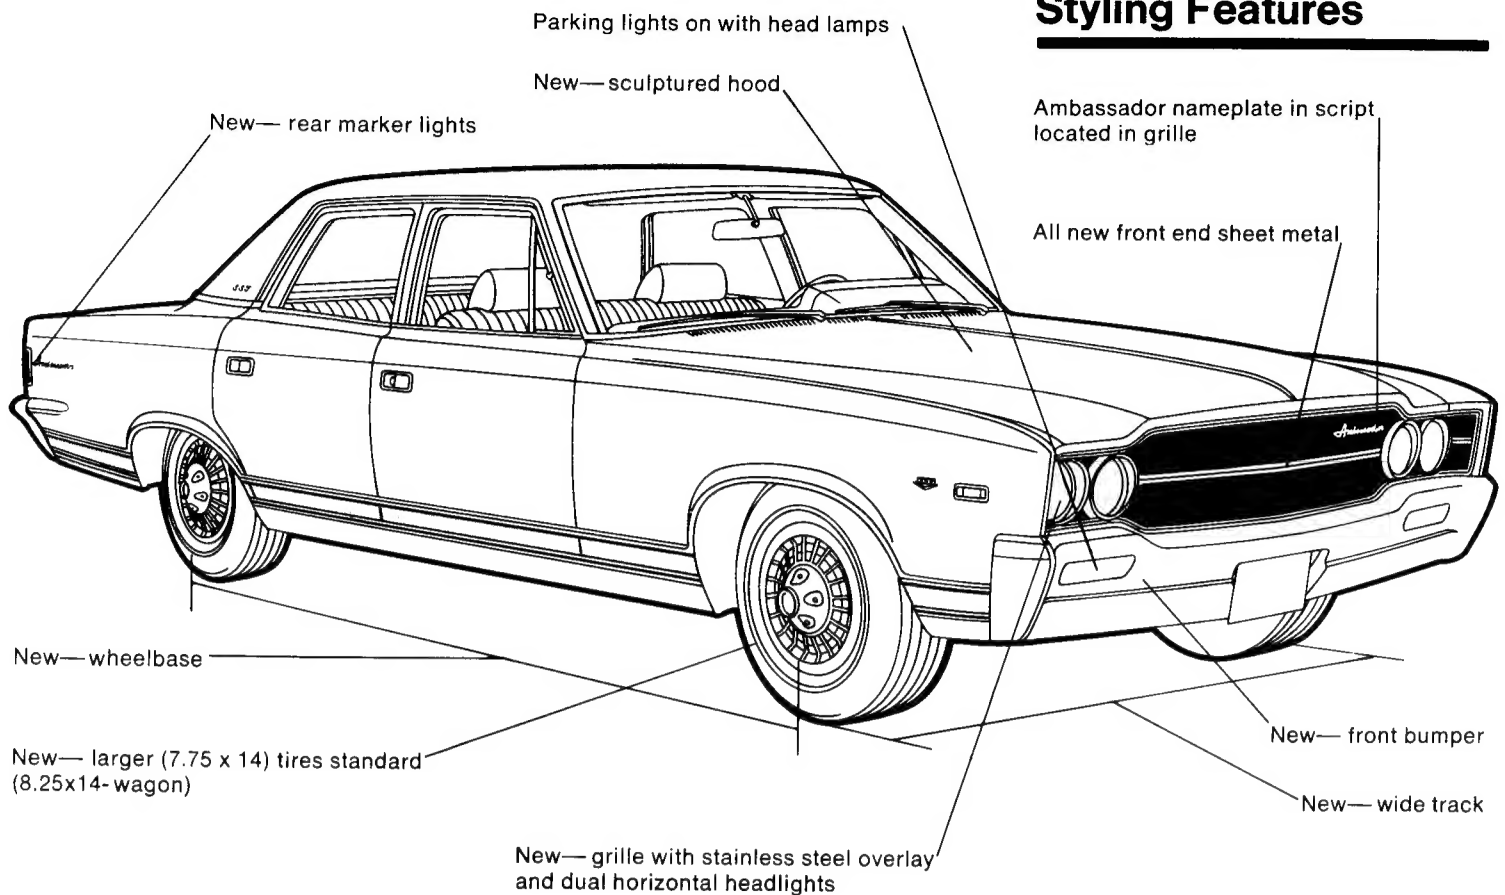

The instrument panels are all new and incorporate a new passenger side air-conditioner air outlet. The all-new trim styles include new color-keyed Avocado and Yellow interiors. All the new door trim panels provide a more luxurious appearance through the use of new, deeper dielectric patterns.

All the 1968 SAFE-COMMAND safety features are carried into 1969. Further new features are added to continue American Motors' traditional policy of vehicle safety.

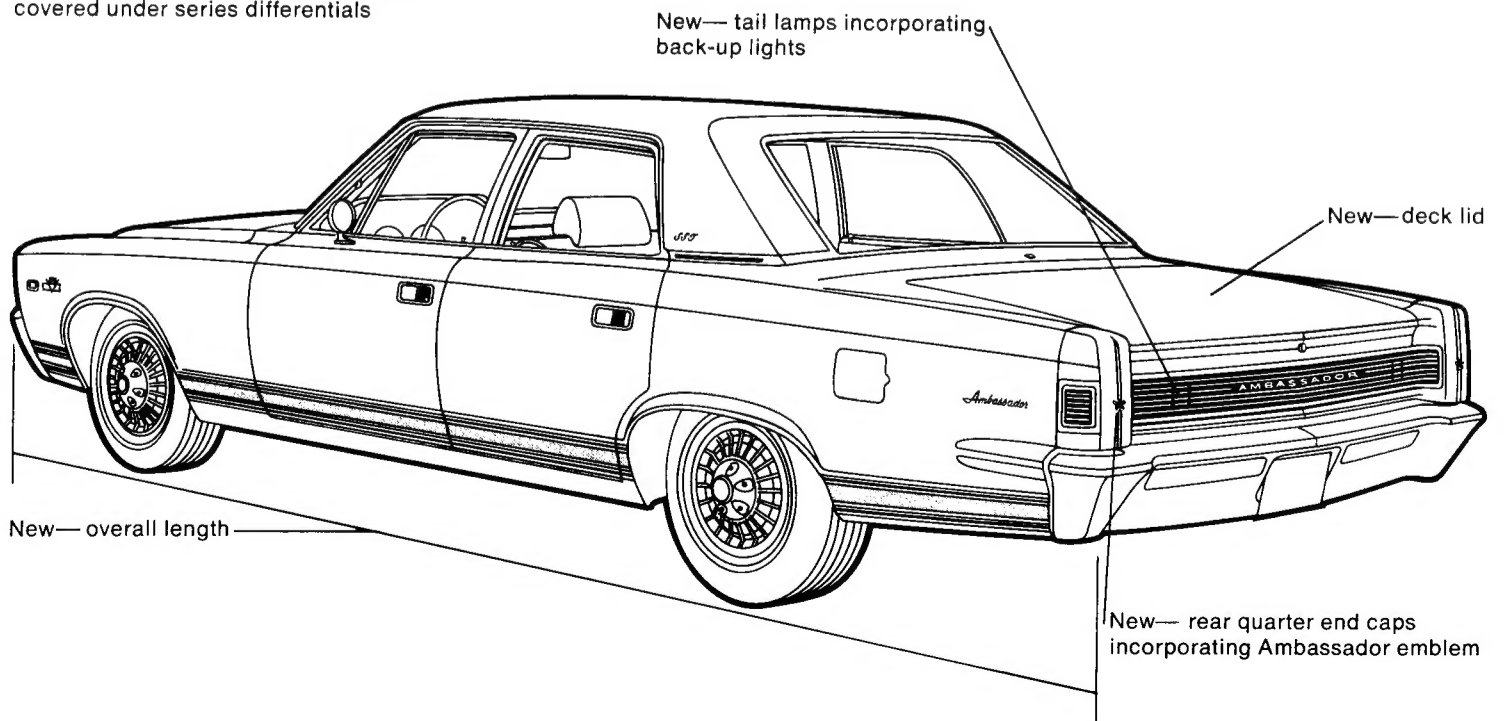

A detailed description of the new Ambassador for 1969 follows.

1969 Ambassador

New Exterior Styling Features

Note: New—exterior ornamentation is covered under series differentials

New

122" wheelbase and 206.5" overall length (207"—wagon)

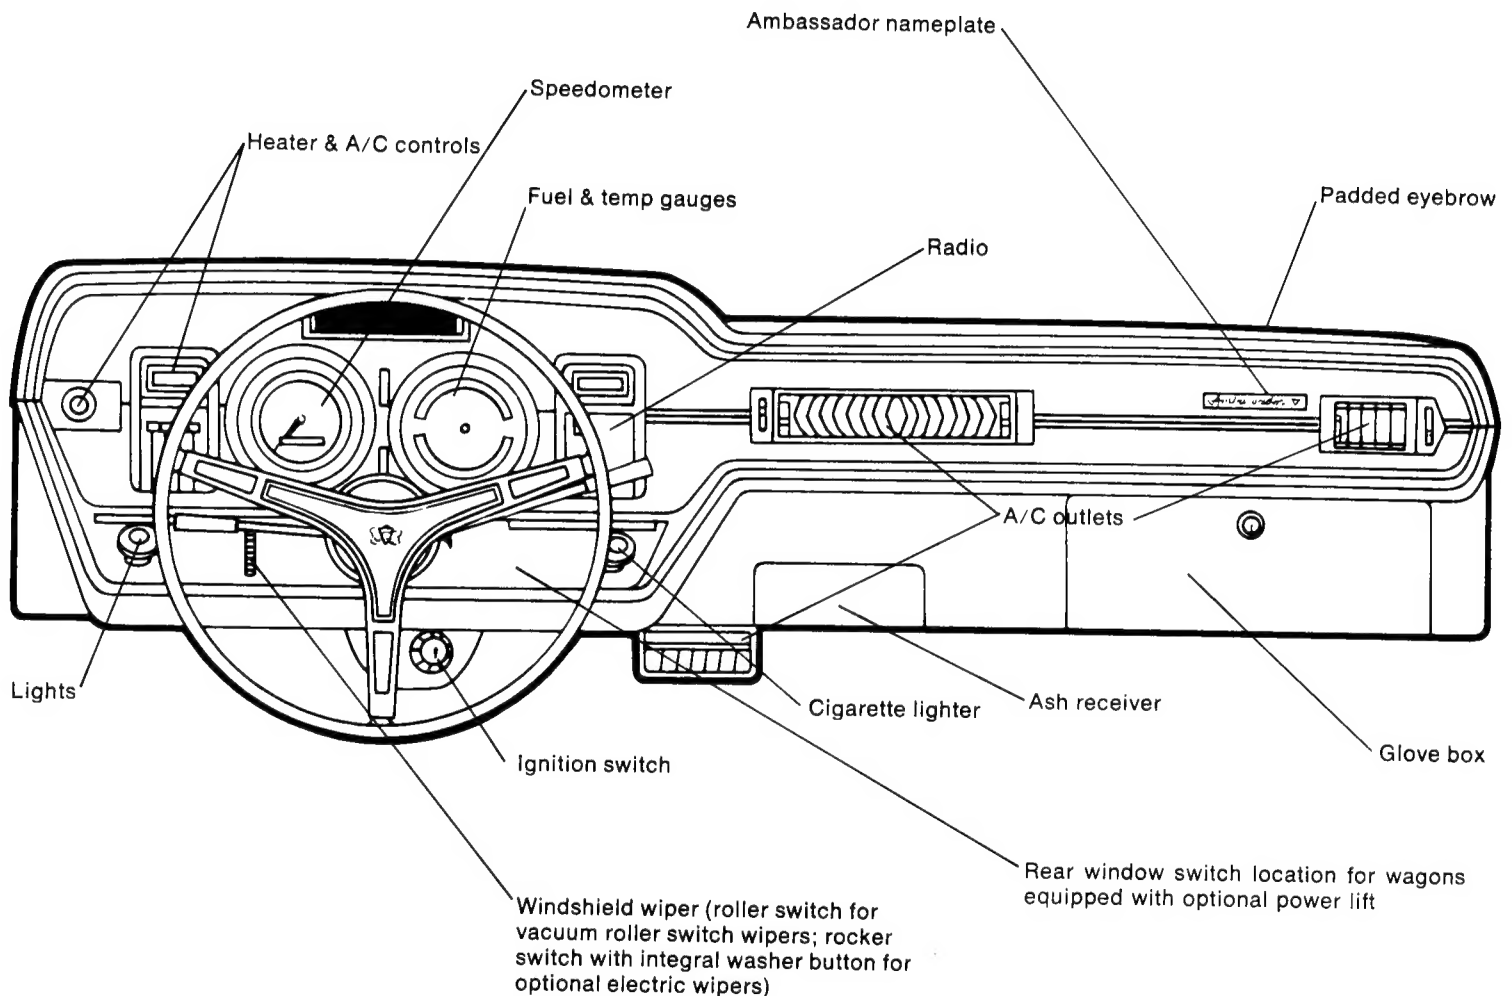

1969 AMBASSADOR
New Exterior Styling Features

- NEW - front end sheet metal
 - NEW - sculptured hood
 - NEW - front fenders
 - NEW - injection-molded plastic (ABS) grille with stainless steel overlay and horizontal headlights
- NEW - rear sheet metal
 - NEW - deck lid
 - NEW - rear quarter end caps incorporating Ambassador emblem
 - NEW - tail lamps incorporating back-up lights
 - NEW - rear side marker lights
- NEW - Dual-Swing tailgate standard on all station wagons
- NEW - SST station wagon with standard wood-grain side and rear paneling
- NEW - 12 exterior colors (plus two carryover colors - Matador Red and Frost White) for DPL & SST. 9 NEW, plus 2 carryover for base series
- NEW - paint treatment on wheel covers and hub caps

1969 Ambassador

New Interior Styling Features

New—Instrument Panel:

New

- seat trim styles, colors and fabrics
- door trim panel patterns with new deeper padded appearance
- instrument panel with padded eyebrow
- air-conditioning outlets (new outlet on passenger side)
- optional custom velour seat trim on SST 4-door sedan
- 100% nylon cut-pile carpet

1969 AMBASSADOR

New Chassis And Mechanical Features

- NEW - wheelbase, 122.0", and overall length, 206.5" (207.0"-wagons). Provides better weight balance under loaded conditions. This along with other factors of increased length and weight will provide a quieter and smoother ride
- NEW - wider track, 60.0", front and rear. Provides better stability and a wider stance
- NEW - high-capacity air-conditioning system. Faster initial cooling to lower interior temperatures with more air movement capacity
- NEW - "Guard-Glo," the safer head lamp with a reserve filament that continues to glow when main filaments burn out. A safety feature that helps eliminate the "one-eyed" menace
- NEW - "Clear-Power 24" battery with transparent, light-weight polypropylene case
- NEW - standard six-cylinder engine, 232 CID, 155 HP, 2-barrel torque-command six, on Ambassador (base) and DPL V-8 remains standard on SST
- NEW - suspended accelerator pedal
- NEW - steering linkage geometry for improved handling
- NEW - rear suspension geometry for more stabilized ride and reduced vibration
- NEW - front motor mounts of butyl rubber for reduced vibration
- NEW - 6" rim width wheels become standard on station wagons only
- NEW - longer upper control arm bushings for softer and quieter ride
- NEW - 55-amp alternator standard with "All-Season" air conditioning

Chassis And Mechanical Changes

The secondary (outer) door seals are removed on all 4-door models

New Optional Equipment

- NEW - custom velour seat trim available in Blue or Platinum, SST 4-door sedan only. Includes full body side, stainless steel trim insert in place of standard wood-grain insert
- NEW - F78 x 14 wide aspect, fiberglass-belted ("Polyglas") white wall tires (standard white wall tires remain optional)
- NEW - 14" wheel with 6" rims (standard on wagons) available on all V-8's

Optional Equipment Changes

Delete option on air-conditioning is still available. However, now if it is exercised, "Command Air" ventilation is automatically substituted. This system uses all the A/C outlets and duct assemblies and a high-capacity, three-speed blower motor

Tachometer dropped

4-speed manual floor-mounted transmission no longer available

Overdrive transmission no longer available

All V-8 engines available with automatic transmissions only

Wood-grain side paneling no longer optional on DPL--replaced by SST station wagon which features wood-grain side and rear paneling as standard

Exterior pin stripe--now available on all models

Three-speed electric windshield wipers (was variable speed)

1968 Models Discontinued - Ambassador (Base) Hardtop

1969 Models Added - SST 4-Door Station Wagon, 6988-7, features wood grain side and rear paneling standard

New Safety Features

Redesigned adjustable headrests

Increased depth of new instrument panel crash pad eyebrow to eliminate reflections

Relocation of ignition switch to reduce knee impact hazard

Redesigned radio push buttons for larger corner radii to reduce head impact hazard

Air-conditioning outlets protected by crash pad eyebrow

1969 AMBASSADOR
"SAFE-COMMAND" Safety Features
(Standard unless otherwise noted)

Construction

Energy absorbing front end structural design
High-strength thick laminate windshield
Tempered safety glass, side and rear windows
Extra-strength door hinges
Molded ceilings
Padded instrument panel
Break-away front ash receivers
Recessed rear ash receiver
Padded sun visors
Non-glare finish on interior and exterior parts

Controls and Instruments

Energy-absorbing steering column
Deep-dish impact absorbing steering wheel
Safety-shaped instrument control knobs
Safety automatic transmission shift pattern
Safety-styled instrument panel layout

Brakes and Wheels

Double-safety brake system with self-adjusting feature
Brake system warning light
Mechanical stoplight switch
Corrosion-resistant brake lines and fittings
Safety-rim wheels
Tread-wear indicators molded in tire tread

Seating and Seat Belts

Seat belts for all seating positions:
 a. Standard for all seating positions
 b. Two front seat belts retractable
Two front shoulder belts
Rear shoulder-belt anchors installed
Safety-seat and shoulder-belt anchorages
Safety-seat anchorages
Automatic lock with manual release folding front seats on 2-door models
Folding rear-seat-back latches for wagons
Front seat headrests
Padded front seat back

1969 AMBASSADOR

"SAFE-COMMAND" SAFETY FEATURES (cont.)

Locks and Door Handles

- High-strength door locks
- "Pre-Set-Impulse" front door locking system
- Safety-shaped interior door handles
- Flush-contoured outside door handles
- Two key locking system

Accessories and Equipment

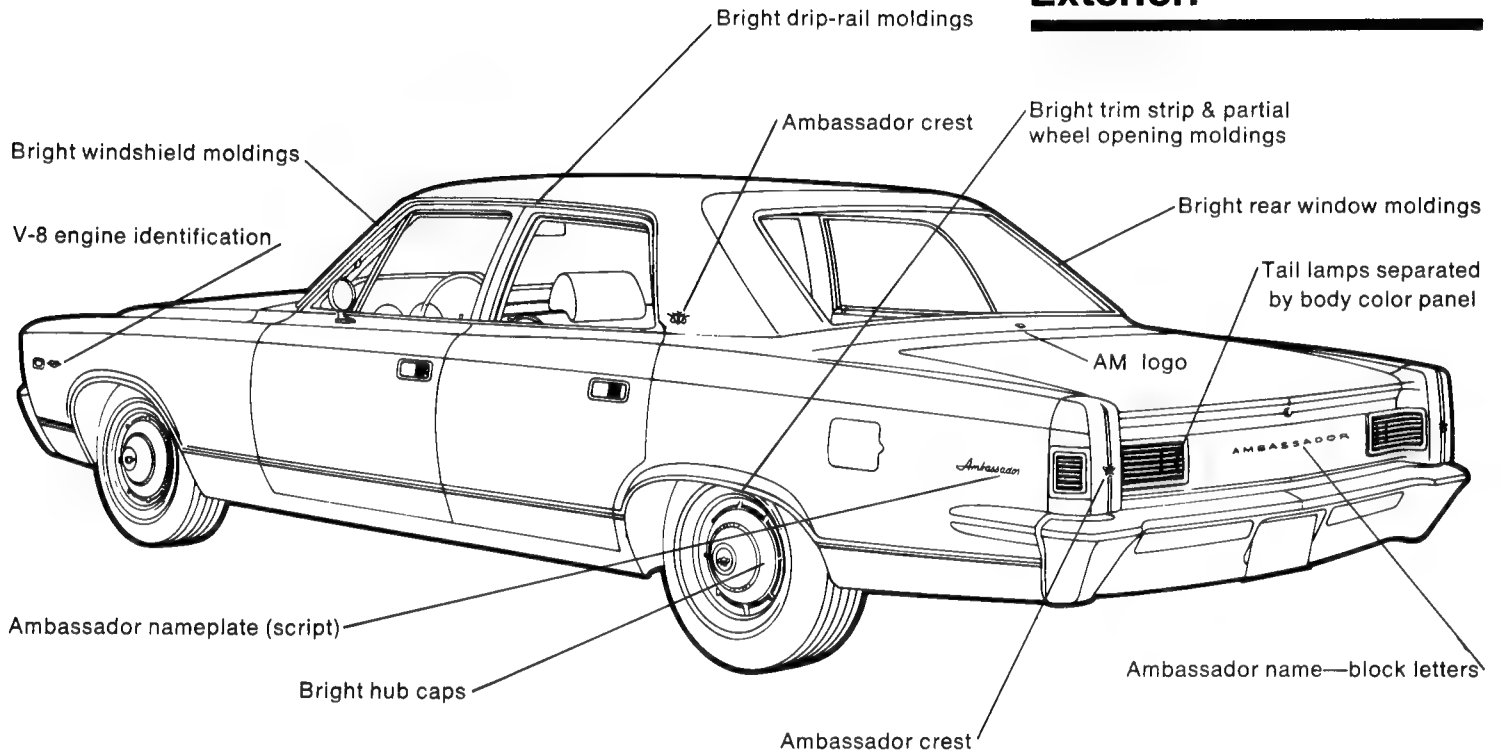

- 4-way hazard warning signals
- Lane changer feature for turn signals
- Safety vanity mirror (opt.)
- Automatic back-up lights
- Shift-command for automatic or manual operation on automatic transmission (opt.)
- Day/Night inside rearview mirror with twin pivots and protected edges
- Rearview mirror, exterior, left side
- Windshield washers - manual (electric opt.)
- Non-glare windshield wipers
- Vacuum power booster windshield wiper motors (electrical opt.)
- Defrosters and defoggers
- Side-of-Car safety markers, front and rear
- "Guard-Glo" head lamps
- Parking lights illuminated with headlights

1969 Ambassador

Series Features

Ambassador (Base):

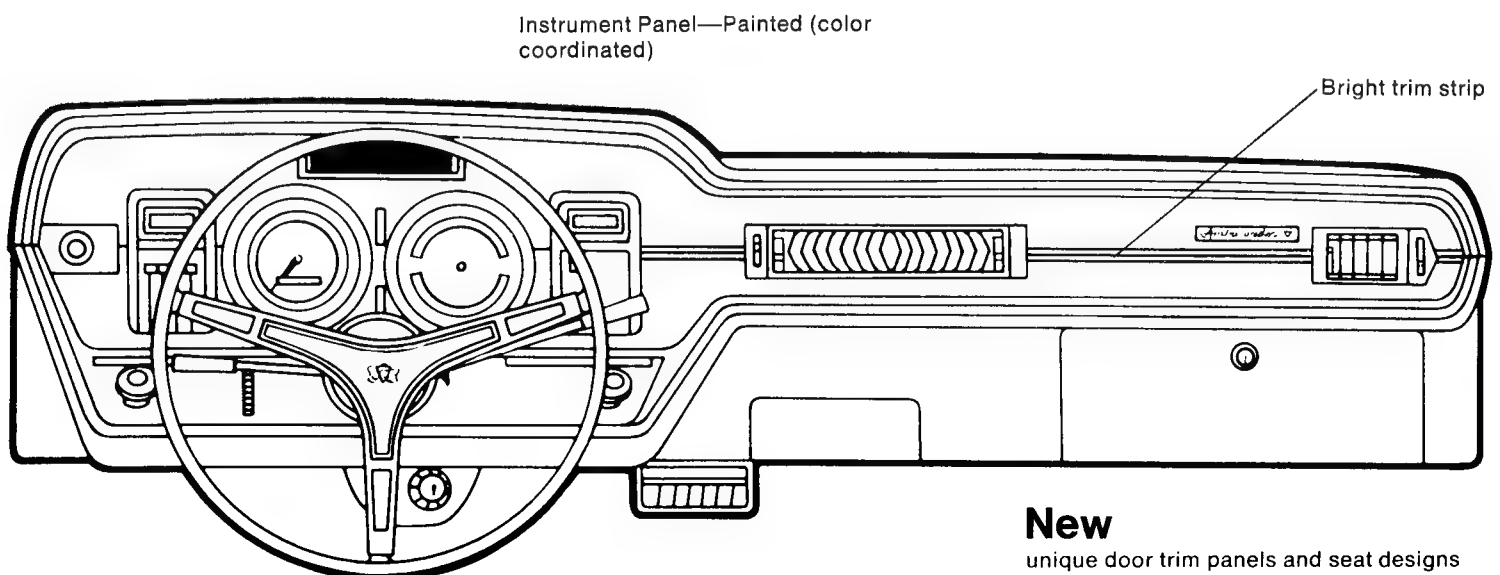

Exterior:

11 Exterior colors offered (Alamosa Aqua, Cordoba Dark Brown and Bittersweet Orange not offered)

Interior:

Instrument panel

Air conditioning standard

New

unique door trim panels and seat designs
"Carthage" pattern cloth seat trim
"Basketweave" pattern embossed vinyl seat trim (optional)

1969 AMBASSADOR

Ambassador Features

Exterior:

Bright drip-rail moldings
Bright windshield and rear window reveal moldings
Bright full-length lower body side moldings with partial wheel opening moldings
11 exterior paint colors (9 NEW)
Ambassador crests of rear quarter end caps (except station wagon) and on "C" pillars
Ambassador name in block letters across front of hood and across lower deck opening panel between tail lamps
Ambassador script on both rear quarter panels
Paint stripe on upper body side available optionally

Interior:

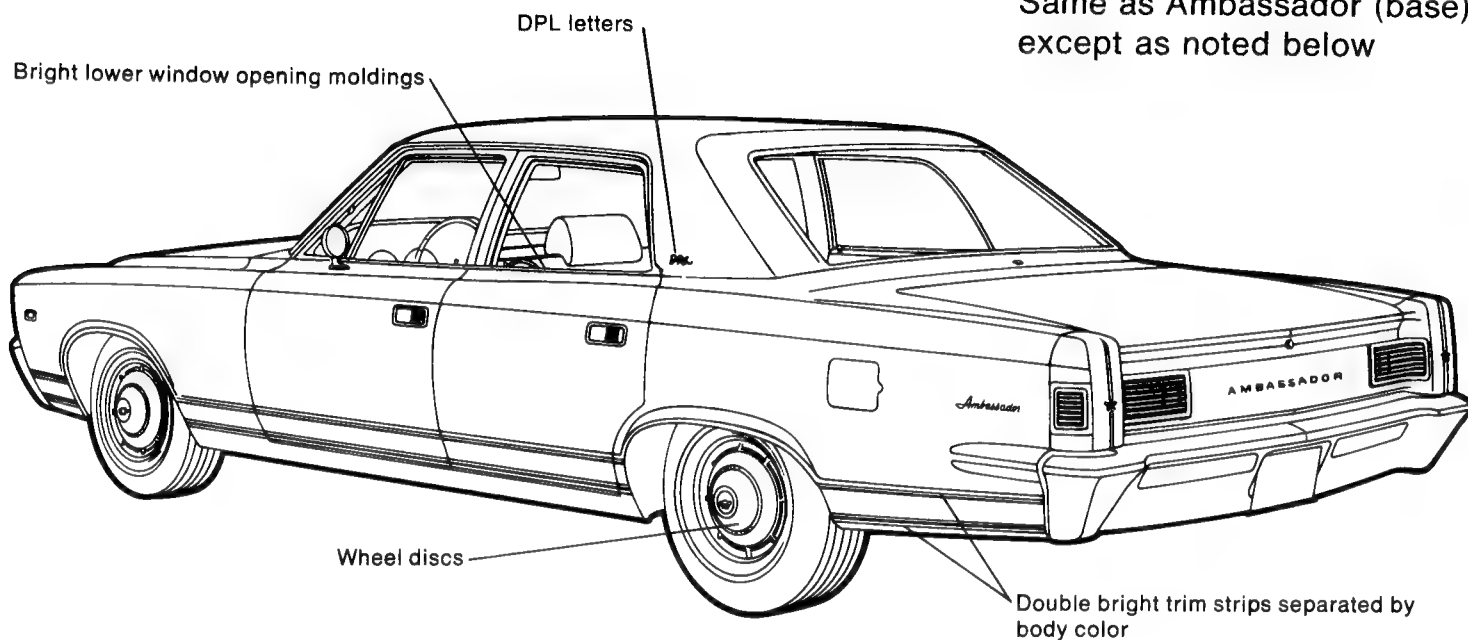

232-2V, 155 HP six-cylinder engine standard
Air conditioning standard
Custom steering wheel standard
Front and rear armrests standard
Cut-pile carpet
Unique door trim panels with bright molding and Ambassador nameplate
Unique seat trim patterns
Cigarette lighter and glove box lock standard
Front door dome or "C" pillar light switches standard

1969 Ambassador

Series Features

Ambassador DPL:

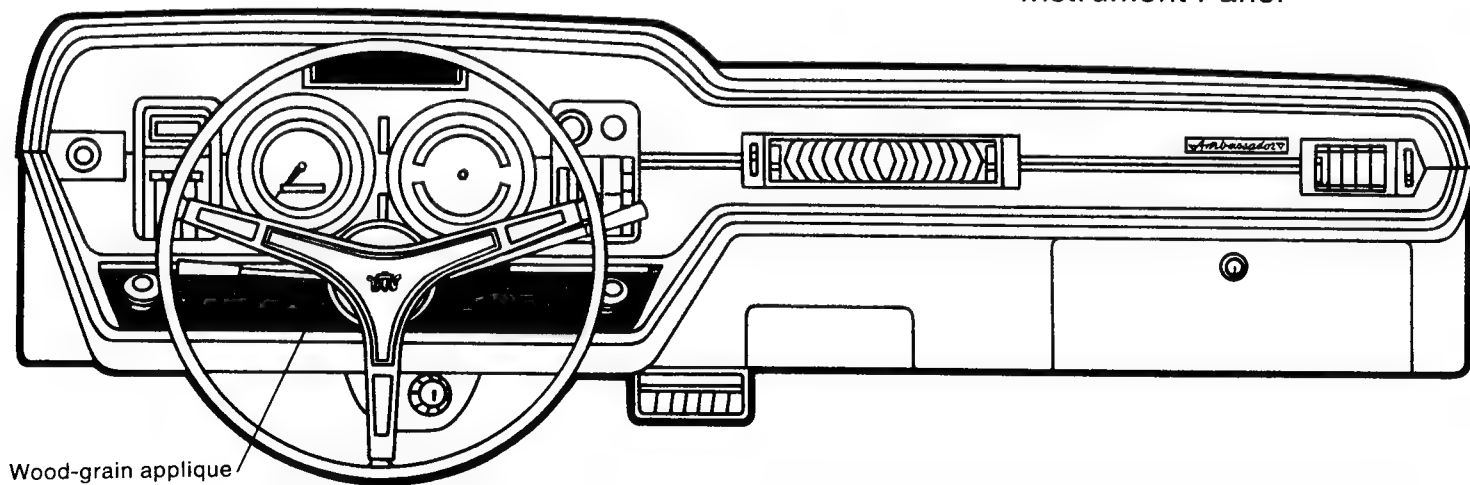

Same as Ambassador (base)
except as noted below

14 Exterior colors offered

Interior:

Instrument Panel

New

- unique door trim panels with wood-grain applique and seat designs
- unique seat trim designs
- “Trafalgar” pattern cloth seat trim
- Optional vinyl seat trim—“Ventilair” (breathable)—standard on wagons

1969 AMBASSADOR

Series Differentials

Ambassador DPL Over Ambassador

Exterior:

Double lower body side bright trim strips separated by body color
Bright lower window opening moldings
Wheel discs standard
DPL letters on "C" pillar
Three extra exterior colors available (Alamosa Aqua, Cordoba Brown
and Bittersweet Orange)

Interior:

Unique door trim panels with wood-grain applique and DPL nameplate
Instrument panel wood-grain applique in light switch, cigarette lighter,
etc., control area
Bright pedal moldings
Unique seat trim patterns and materials

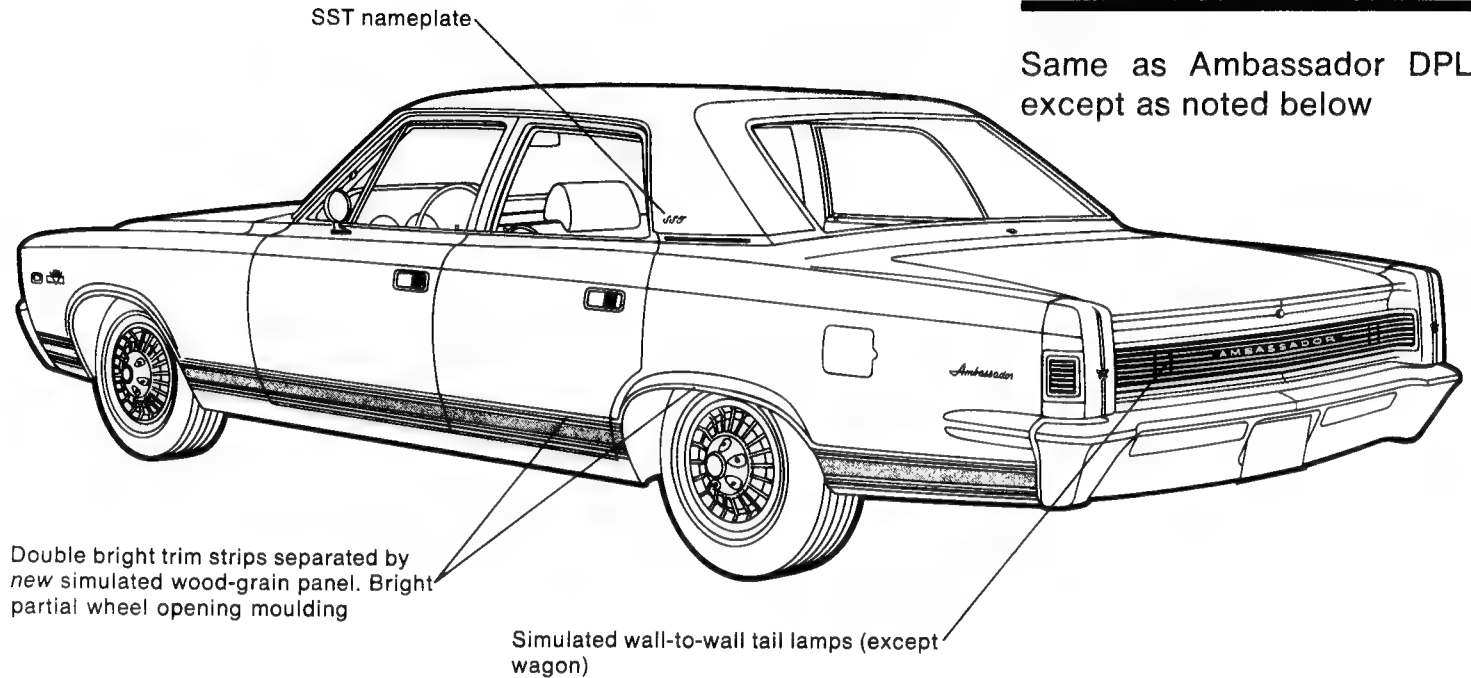

1969 Ambassador

Series Features

Ambassador SST:

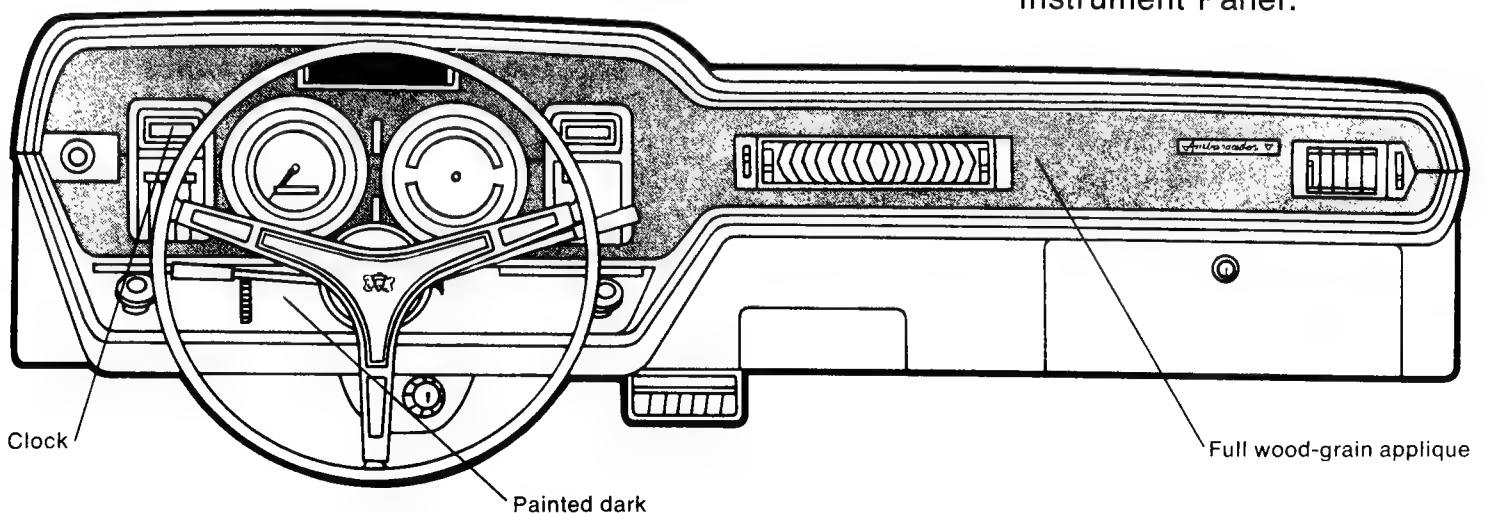

Exterior:

Same as Ambassador DPL except as noted below

Interior:

Instrument Panel:

New

- unique door trim panels with wood-grain applique
- seat trim designs
- custom velour seat trim offered optionally on 4-door sedan ("Custom" nameplate on front door trim panel)
- "Aragon" pattern cloth seat trim

Optional vinyl seat trim—"Ventilair" (breathable)—standard on wagons

1969 AMBASSADOR

Series Differentials

Ambassador SST Over Ambassador DPL

Exterior:

Double lower body side bright trim strips separated by a NEW wood-grain trim panel

Simulated wall-to-wall tail lamps (except wagon)

SST letters on "C" pillar

Interior:

290-2V, 200 HP engine standard

Full-width instrument panel wood-grain applique

Unique door trim panel with wood-grain applique and SST nameplate

Glove box light, parking brake warning light, rear door dome or "C" pillar light switch, clock standard, trunk light, ash receiver light, and lights-on warning buzzer

Individual reclining seats standard

Bucket seats available optionally on hardtop

NEW - "Custom" velour seat trim available optionally on 4-door sedan with "Custom" trim. Stainless steel trim strip replaces wood-grain exterior trim strip

Unique seat trim patterns and cloth materials ("Ventilair" vinyl is common with DPL)

1969 Ambassador

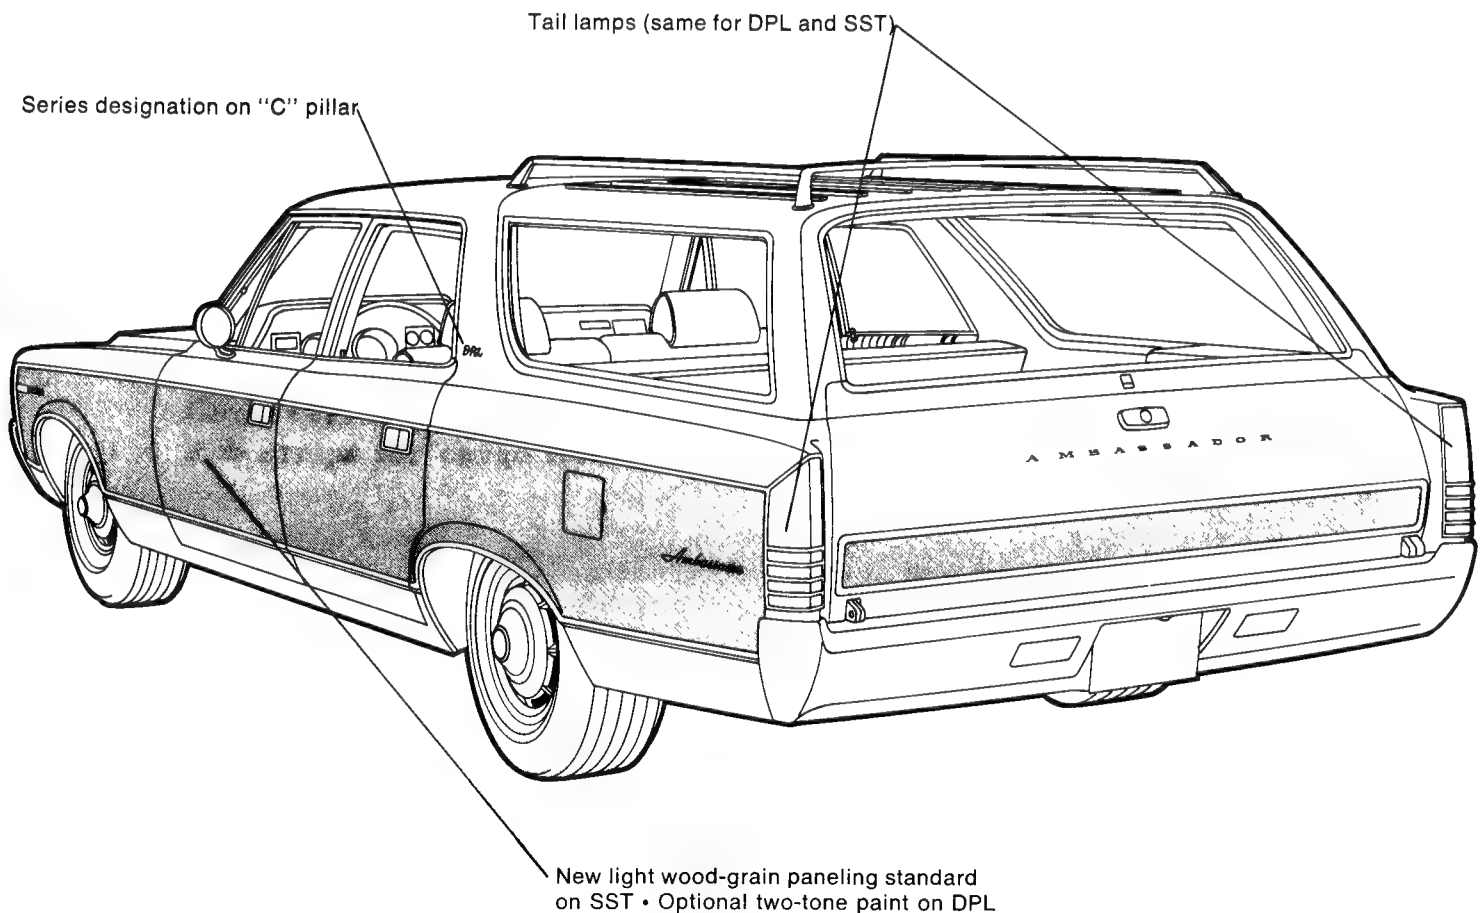

Series Features

Ambassador Wagons:

DPL:

New

- Dual-Swing tailgate standard
- larger underfloor storage area on two seat wagons (8.0 cubic feet, was 3.5 cubic feet)
- 6" rim width wheel standard (8.25 x 14 tires retained as standard)
- Bright tailgate trim panel
- "Ventilair" is standard seat trim

SST:

Same as DPL except as follows: Same exterior and interior trim level as SST 4-door sedan and SST hardtop except that wood-grain side and rear paneling (as shown) replaces bright trim below beltline

1969 AMBASSADOR
Ambassador Wagon Features

Ambassador DPL:

NEW - Dual-Swing tailgate

NEW - bigger, lockable underfloor storage areas

NEW - 6" rim width wheel standard (8.25 x 14 tires retained as standard)

Luggage rack continues as standard

Crank-operated tailgate window (electric optional)

Carpeted cargo area

Spare tire now mounted vertically in all wagons

Third seat option

Wood-grain side paneling is no longer available optionally

"Ventilair" breathable vinyl seat trim (cloth trimmed individually reclining seats available optionally)

Series Differential

Ambassador SST Over DPL

All standard differential items of SST series over DPL series

Wood-grain side and tailgate paneling standard

Cloth seat trim available as a no cost option

Rub strips for cargo floor

1969 AMBASSADOR
Retained Standard Features

Body:

All-welded, single-unit body construction (safe, strong, durable)
("Advanced Unit Construction")
Deep-Dip body rustproofing
All-Season air conditioning
Weather-Eye heater
Fresh-air ventilation
Air-intake guard screen
Triple-coated Lustre-Gard acrylic enamel (14 colors)
Molded cushioned acoustical ceiling
Curved side glass
Injection-molded (ABS) grille
Two-position front door checks
Front and rear armrests
Cigarette lighter
Front ash receivers
Rear ash receivers
Full-width carpeting
Coil-spring seat construction (solid foam for wagon third seat)
Front seat foam cushion (rear seat foam cushion in SST hardtop)
Extruded aluminum door window frames on all 4-door models
Neoprene door seals on all hardtops
Dome or side pillar lights
Station wagon roof-top travel rack
Glove box lock
Hidden compartment with lock for station wagons
Two coat hooks

1969 AMBASSADOR
Retained Standard Features (cont.)

Mechanical:

Coil springs at all four wheels
Direct-action, independent front suspension with sway bar
Four-link, trailing arm rear suspension
Hypoid gear rear axle
Self-adjusting brakes with bonded linings
Brake diameter 10"; lining area 167.5 square inches
Standard 4-ply-rating, 2-ply tires; 7.75 x 14 for V-8's, 8.25 x 14 for
all wagons. NEW - 7.75 x 14 for sixes, was 7.35 x 14
Engine-oil filter, full flow
Fuel-tank approximate capacity, 21.5 gallons (19 for wagons)
Fuel filters in tank and at carburetor (NEW - in line filter just
ahead of carburetor-was in fuel pump)
All-Season engine coolant
Anti-smog positive crankcase vent
"Engine-Mod" exhaust emission control system
Automatic choke
Wheel discs standard on DPL and SST

Electrical:

Dual horns
Standard 35-amp electronic alternator and sealed transistorized voltage
regulator (40-amp with air conditioning)
NEW - "Clear-Power 24" Intercell Battery (was Power-Guard); 50-amp standard
on Sixes and "290" V-8's, 60-amp standard on "343" and "390", 70-amp
optional
Dual head lamps

1969 REBEL

Product Highlights

The 1969 Rebel features a new front appearance derived from a new grille and new head lamp bezels. The new rear appearance features new tail lamp assemblies, a new deck lid and a new lower deck opening panel.

The new tail lamp assemblies provide a new rear side appearance through the new wrap around design. Block lettering is used for all exterior and interior "Rebel" nameplates replacing the script used in some areas on the 1968 model.

The Rebel is offered in two series and six models for 1969 instead of the three series and nine models as in 1968.

Rebel Series:

4-Door Sedan	6915
2-Door Hardtop	6919
4-Door Station Wagon	6918

Rebel SST Series:

4-Door Sedan	6915-7
2-Door Hardtop	6919-7
4-Door Station Wagon	6918-7

The 550 and 770 series are dropped and replaced by a low-line "Rebel" series. This now provides consistency throughout all AM lines in that the base series in each line is given the general line name with higher-line models in each series given suffix designations. The SST high-line series is retained with two new models for 1969, the SST 4-door sedan and the SST 4-door station wagon.

All convertibles are dropped for 1969.

The 1969 Rebel line interiors feature an all-new instrument panel, all-new door trim panel designs, all-new seat trim designs and new cloth fabrics. The Basketweave (low-line) and Ventilair (high-line) vinyl fabrics are retained but in new trim patterns.

All Rebel line station wagons feature the new Dual-Swing tailgate as standard equipment. The roof rack remains standard equipment for 1969.

The front and rear tread increase to a new wide 60". This is an increase of 1.4" for the front tread and 1.5" for the rear tread.

1969 REBEL

PRODUCT HIGHLIGHTS (cont.)

The 232 CID, 145 HP six-cylinder engine becomes standard across the line. The 290 CID V-8 engine is dropped as standard in the SST series and becomes optional across the line.

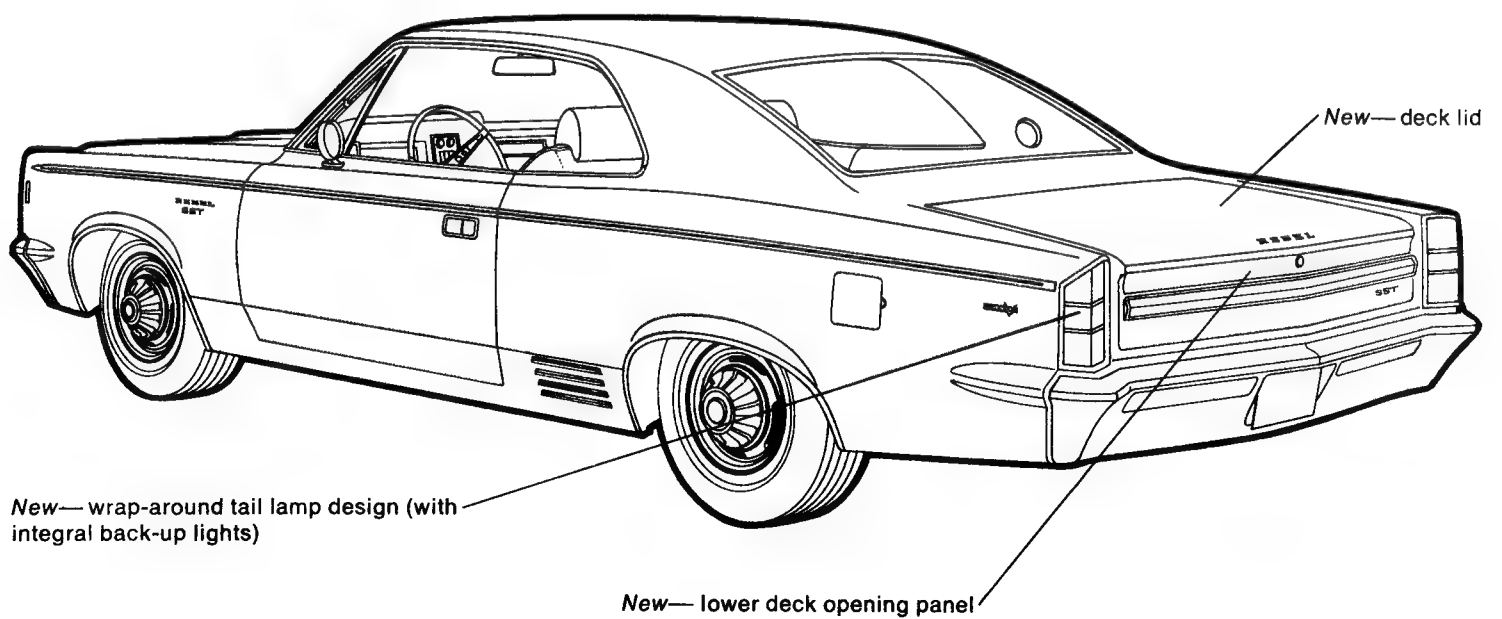

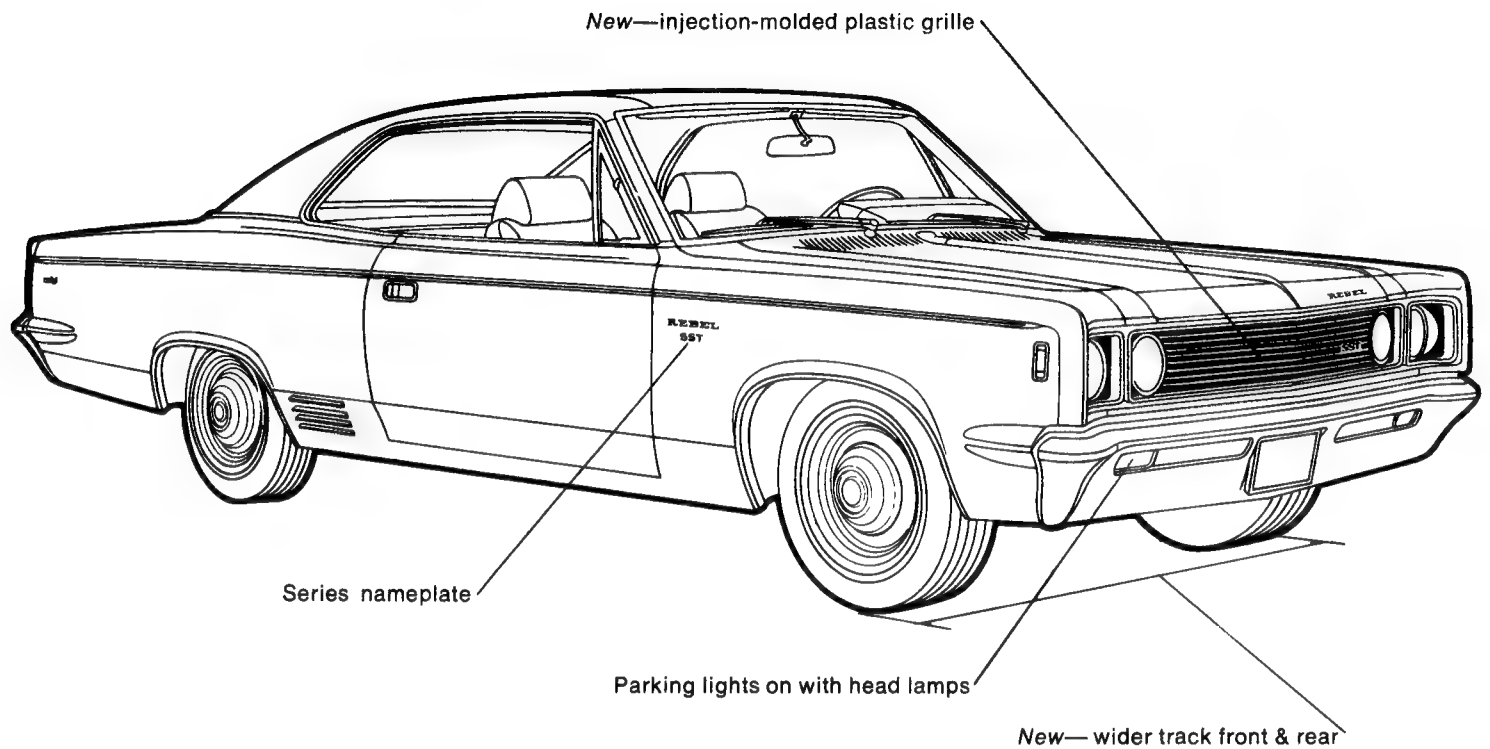

A new higher capacity air-conditioning system is optionally offered. The new system features higher cooling capacity, higher air movement capacity and a new passenger side instrument panel outlet. A new instrument panel "Command Air" ventilation system is offered optionally. This system features all the normal air-conditioning outlets and a high capacity, three-speed blower motor and, therefore, can be easily and less expensively converted to air conditioning at a later date.

All the 1968 SAFE-COMMAND safety features are carried into 1969. Further new features are added to continue American Motors' traditional policy of vehicle safety.

A detailed description of the new Rebel for 1969 follows.

1969 Rebel

New Exterior Styling Features

1969 REBEL

New Exterior Styling Features

NEW - injection-molded plastic (ABS) grille featuring full-width ribbing

NEW - rear styling

NEW - deck lid

NEW - lower deck opening panel

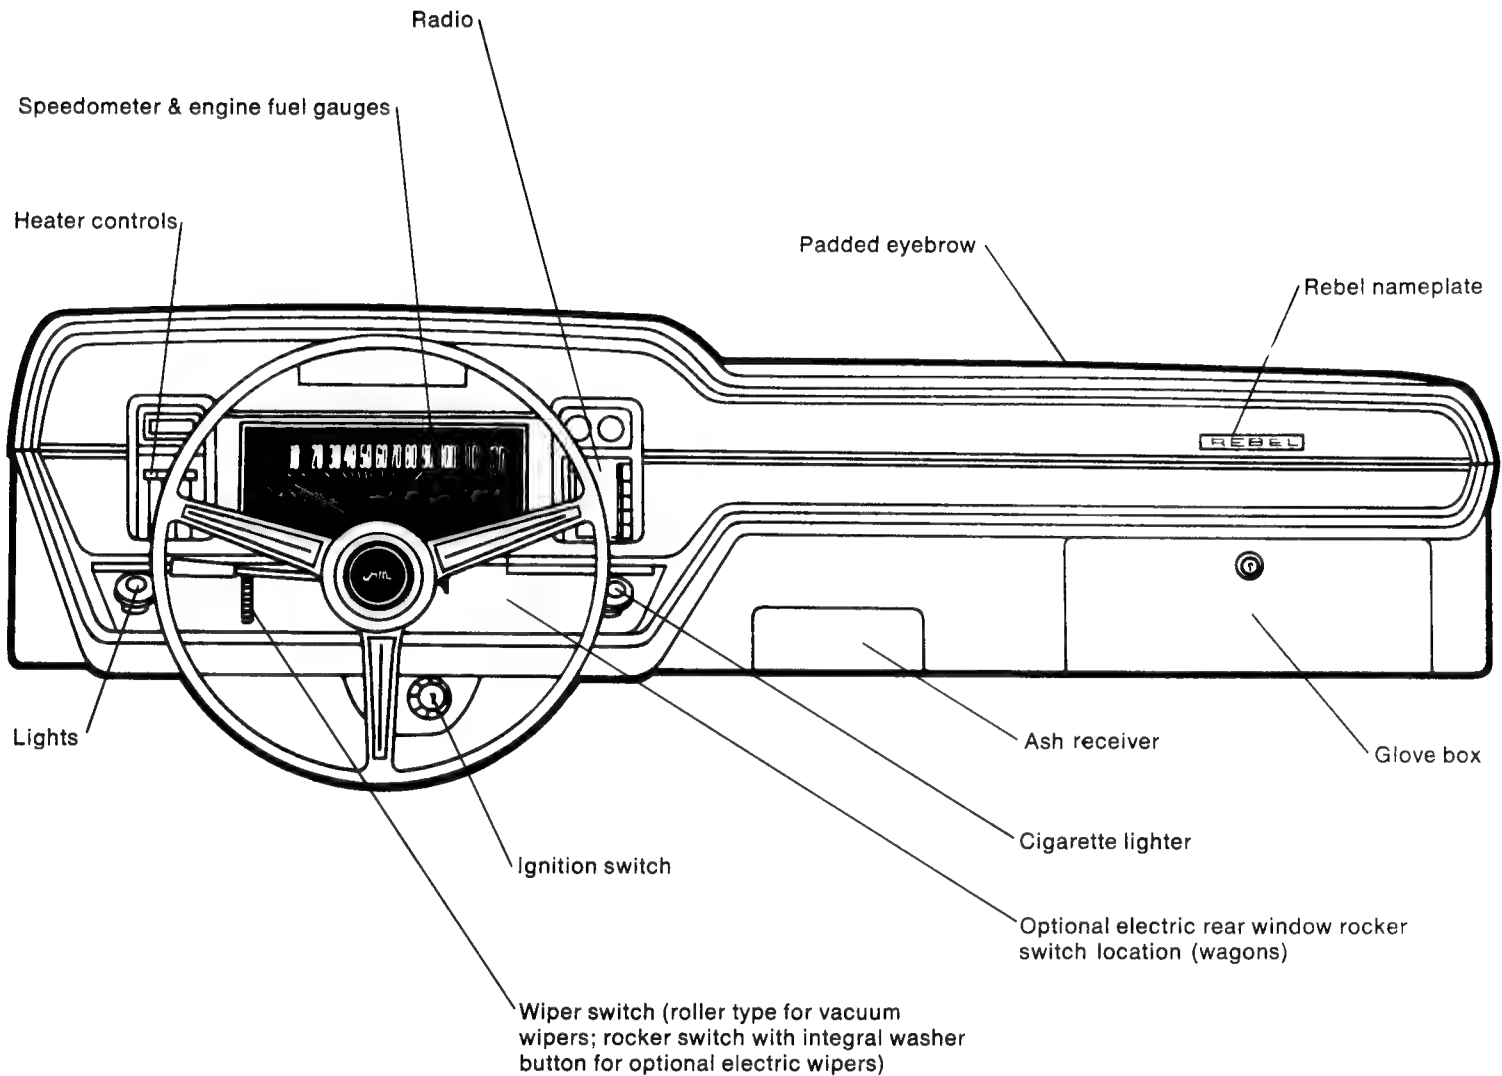

NEW - wrap around tail lamp design (with integral back-up lights)

NEW - paint treatment on hub caps and optional wheel covers

1969 Rebel

New Interior Styling Features

New—Instrument panel

New

• seat trim styles, colors and fabrics • door trim panel patterns with new deeper padded appearance • instrument panel with padded eyebrow • 100% nylon cut-pile carpet on SST series (running change for late 1968)

1969 REBEL

New Chassis And Mechanical Features

- NEW - wider track front and rear - both become 60.0"
- NEW - "Guard-Glo," the safer head lamp with a reserve filament that continues to glow when main filaments burn out. A safety feature that helps eliminate the "one-eyed" menace
- NEW - "Clear-Power 24" battery with transparent, light-weight polypropylene case
- NEW - steering linkage geometry for improved handling
- NEW - rear suspension geometry for more stabilized ride and reduced vibration
- NEW - suspended accelerator pedal
- NEW - longer upper control arm bushings for softer and quieter ride
- NEW - 55-amp alternator (replaces 40-amp alternator) with "All-Season" air conditioning option

Chassis and Mechanical Changes

The secondary (outer) door seals are removed on all 4-door models
See General (Section 6) also

New Optional Equipment

- NEW* -higher capacity "All-Season" air-conditioning system featuring faster initial cooling to lower interior temperatures with more air movement capacity
- NEW* -"Command Air" ventilation system featuring all air-conditioning instrument panel outlets and a high-capacity, three-speed blower motor
- NEW- passenger side instrument panel outlet included with A/C and the above ventilation system
- NEW - F78 x 14 wide aspect, fiberglass-belted ("Polyglas") white wall tires (standard white wall tires remain optional)

Optional Equipment Changes

Overdrive available on 232 CID, 145 HP six-cylinder engine only, was this engine and 290 CID, 200 HP V-8 engine

Exterior paint stripe available with base series only, new trim strip for SST
Hood insulation no longer standard on SST. Optional insulation group now available across the series

Four-speed manual transmission not available
Tachometer dropped

- * Where either "All-Season" air conditioning or "Command Air" ventilation is installed on a Rebel (base), the SST instrument panel will be standard

1969 REBEL

Model Availability

<u>Body Styles</u>	<u>Rebel (Base)</u>	<u>Rebel SST</u>	<u>Total</u>
4-Door Sedans	6915	6915-7	2
2-Door Hardtops	6919	6919-7	2
4-Door Station Wagons	<u>6918</u>	<u>6918-7</u>	<u>2</u>
Total	<u>3</u>	<u>3</u>	<u>6</u>

The 550 and 770 series are dropped. The Rebel series replaces these as a low-line series

The Rebel SST series remains the high-line series and in 1969, the number of models is increased to three with the addition of the following new models:

SST 4-Door Sedan
SST 4-Door Station Wagon

All convertibles are dropped

New Safety Features

Redesigned adjustable headrests

Increased depth of new instrument panel crash pad eyebrow to eliminate reflections

Relocation of ignition switch to reduce knee impact hazard

Redesigned radio push buttons for larger corner radii to reduce head impact hazard

Air-conditioning outlets protected by crash pad eyebrow

1969 REBEL"SAFE-COMMAND" Safety Features
(Standard unless otherwise noted)Construction

Energy absorbing front end structural design
High-strength thick laminate windshield
Tempered safety glass, side and rear windows
Extra-strength door hinges
Molded ceilings
Padded instrument panel
Break-away front ash receivers
Recessed rear ash receiver
Padded sun visors
Non-glare finish on interior and exterior parts

Controls and Instruments

Energy-absorbing steering column
Deep-dish impact absorbing steering wheel
Safety-shaped instrument control knobs
Safety automatic transmission shift pattern
Safety-styled instrument panel layout

Brakes and Wheels

Double-safety brake system with self-adjusting feature
Brake system warning light
Mechanical stoplight switch
Corrosion-resistant brake lines and fittings
Safety-rim wheels
Tread-wear indicators molded into tire tread

Seating and Seat Belts

Seat belts for all seating positions:
 a. Standard for all seating positions
 b. Two front seat belts retractable
Two front shoulder belts
Rear shoulder-belt anchors installed
Safety-seat and shoulder-belt anchorages
Safety-seat anchorages
Automatic lock with manual release folding front seats on 2-door models

1969 REBEL

"SAFE-COMMAND" SAFETY FEATURES (cont.)

Seating and Seat Belts (cont.)

Folding rear-seat-back latches for wagons
Front seat headrests
Padded front seat back

Locks and Door Handles

High-strength door locks
"Pre-Set-Impulse" front door locking system
Safety-shaped interior door handles
Flush-contoured outside door handles
Two key locking system

Accessories and Equipment

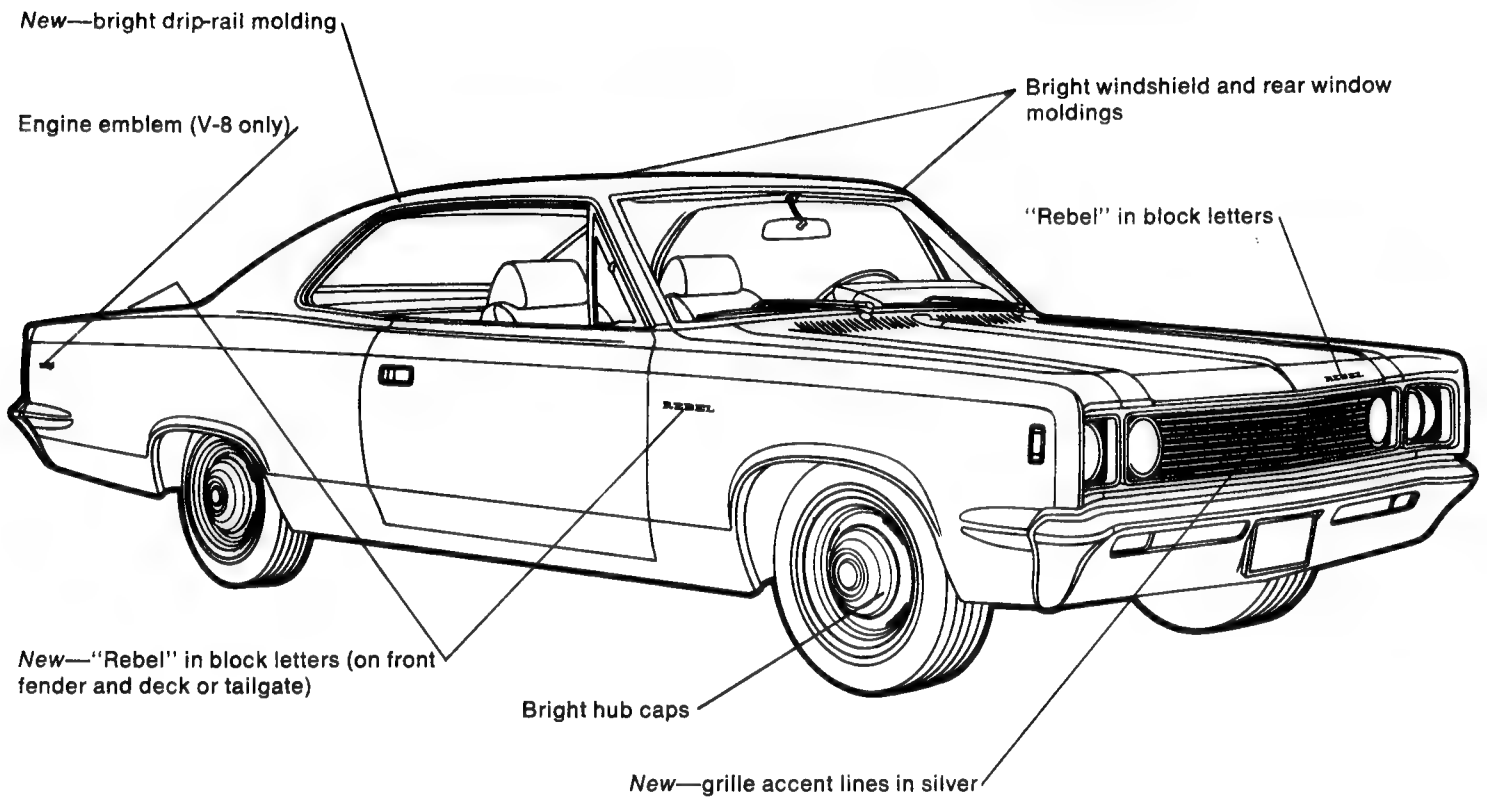

4-way hazard warning signals
Lane changer feature for turn signals
Safety vanity mirror (opt.)
Automatic back-up lights
Shift-command for automatic or manual operation on automatic transmission (opt.)
Day/Night inside rearview mirror with twin pivots and protected edges
Rearview mirror, left side exterior
Windshield washers - manual (electric opt.)
Non-glare windshield wipers
Vacuum power booster windshield wiper motors (electrical opt.)
Defrosters and defoggers
Side-of-Car safety markers, front and rear
"Guard-Glo" head lamps
Parking lights illuminated with headlights

1969 Rebel

Series Features

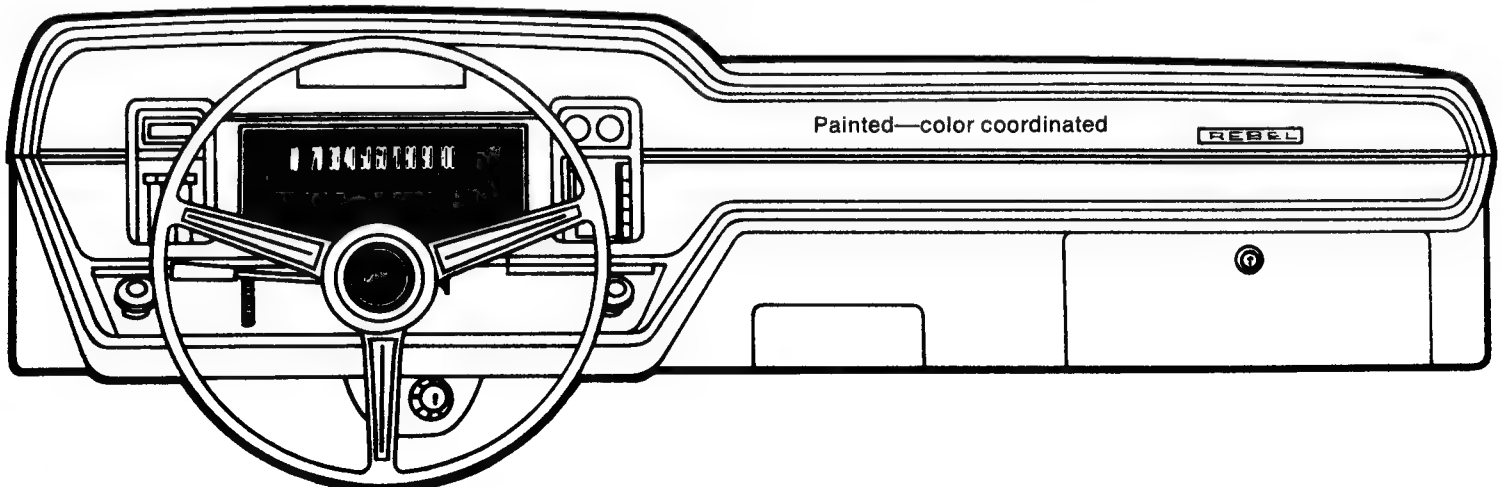

Rebel (Base):

Exterior:

Interior:

New—Instrument panel

New

- unique door trim panels and seat designs • "Doric" pattern cloth seat trim • "Basketweave" pattern embossed vinyl seat trim optional (standard on wagons)

1969 REBEL

Rebel (Base) Features

Exterior:

Grille accented with bright paint lines
Bright windshield and rear window reveal moldings
Bright drip-rail moldings
11 exterior paint colors
Bright hub caps
Rebel lettering on hood (driver's side), fender (to the rear of the wheel opening) and deck lid/tailgate in bold block letters

Interior:

232-IV, 145 HP six-cylinder engine standard
Cigarette lighter
Color keyed rubber floor mats in four colors (Blue, Brown, Avocado and Black)
Front armrests
Rear armrests on 4-door models
Bright instrument panel and door trim moldings
Unique door trim panels
Unique seat trim patterns

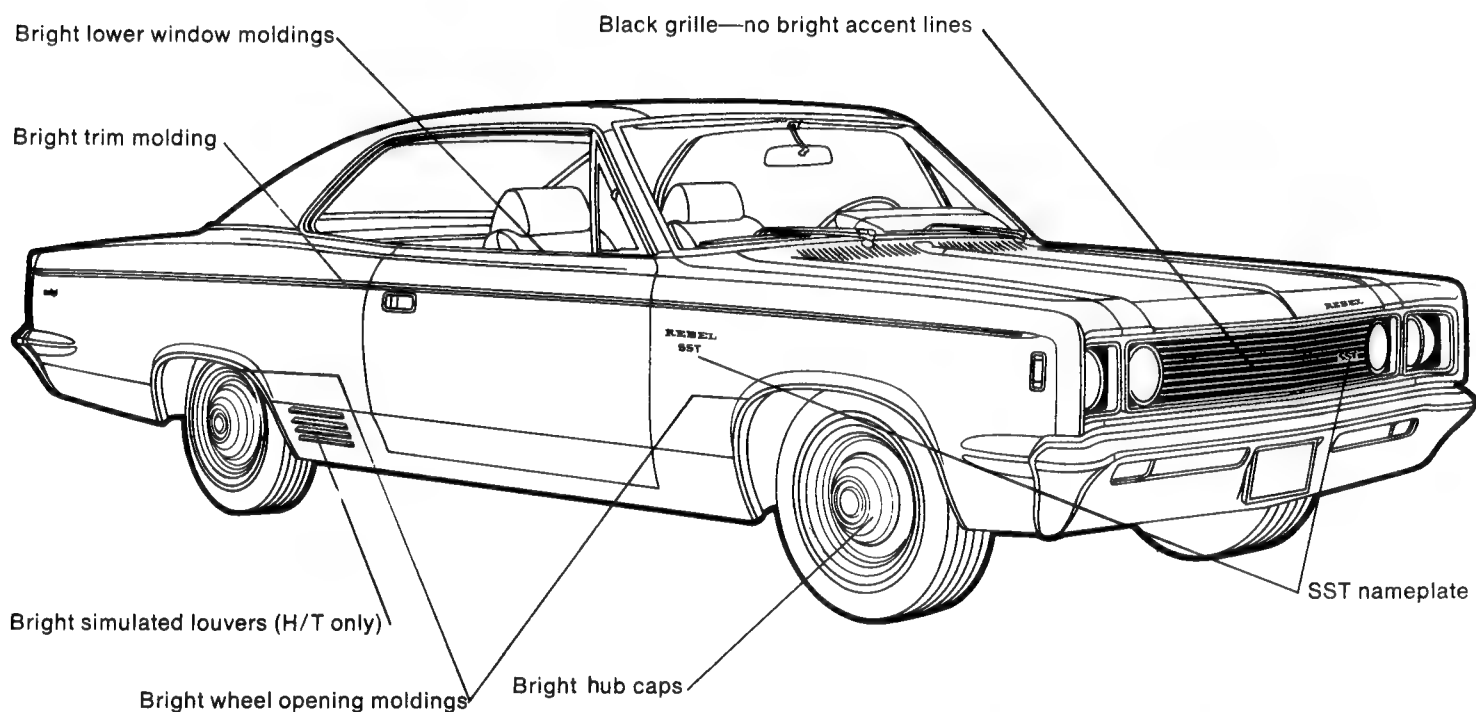

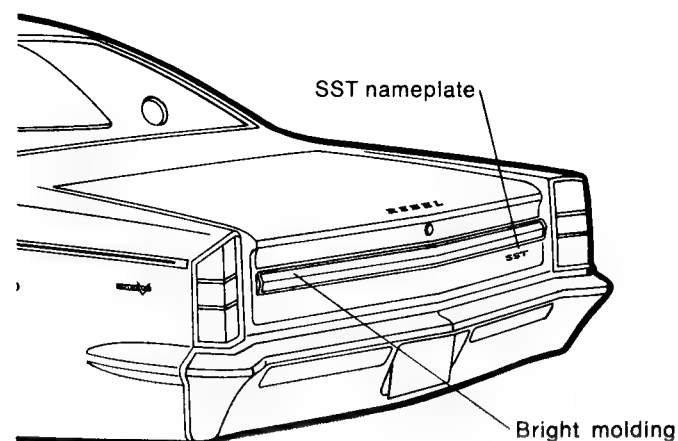

1969 Rebel

Series Features

Rebel SST:

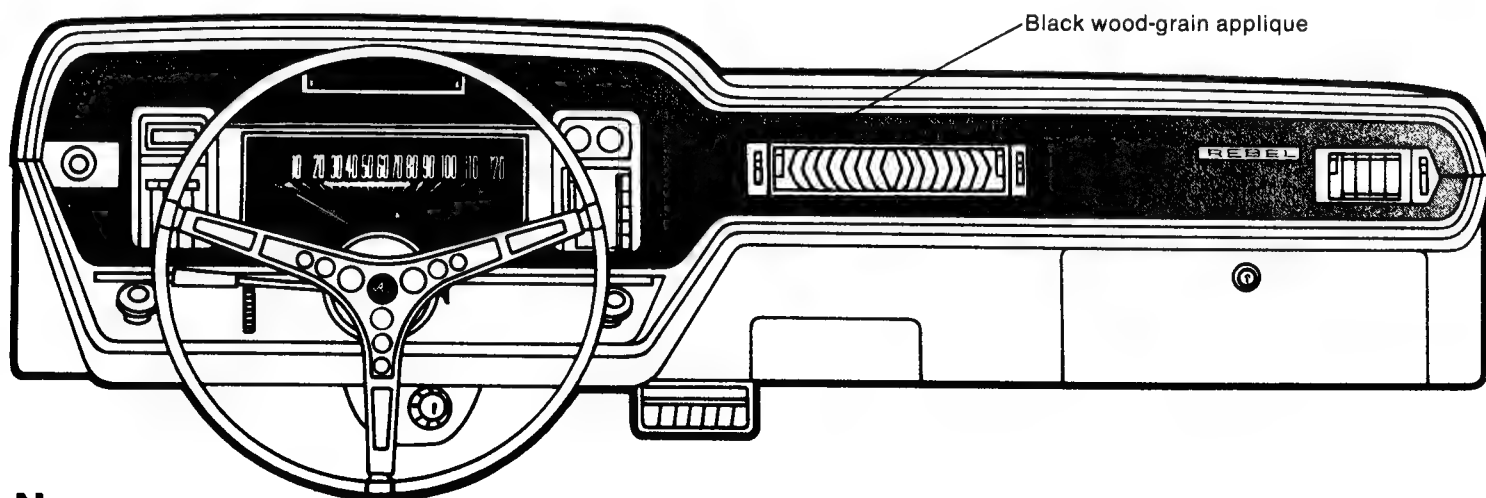

Same as Rebel (base) except
as noted below

Exterior:

Interior:

New—Instrument panel

New

- unique door trim panels and seat design • “Cloister” pattern cloth seat trim
- Optional “Ventilair” breathable vinyl seat trim (standard on wagons)

1969 REBEL

Series Differentials

Rebel SST Over Rebel

Exterior:

- Black grille - no bright accent lines
- SST nameplates on grille, front fender behind wheel opening and lower deck opening panel
- Bright full-length body side moldings
- Bright full-wheel opening moldings
- Bright lower window moldings
- Bright full-length lower deck opening panel molding
- Bright simulated louvers on lower quarter panel forward of the wheel opening (hardtop only)

Interior:

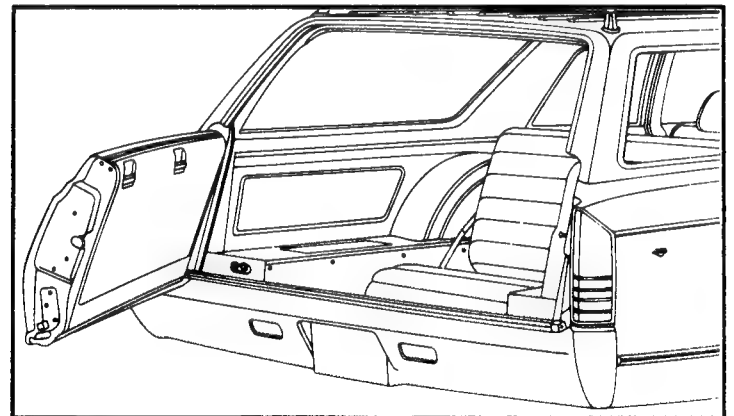

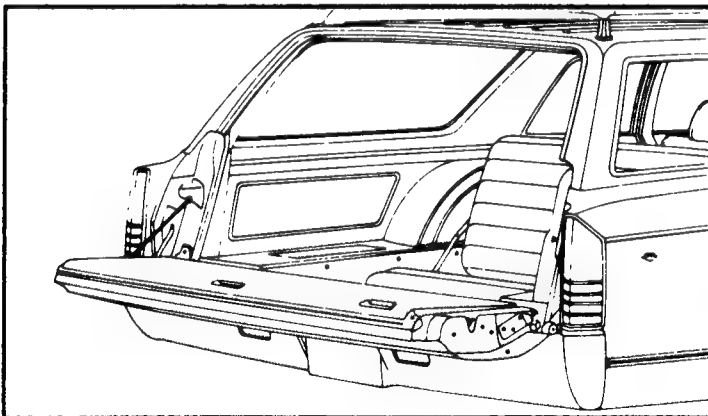

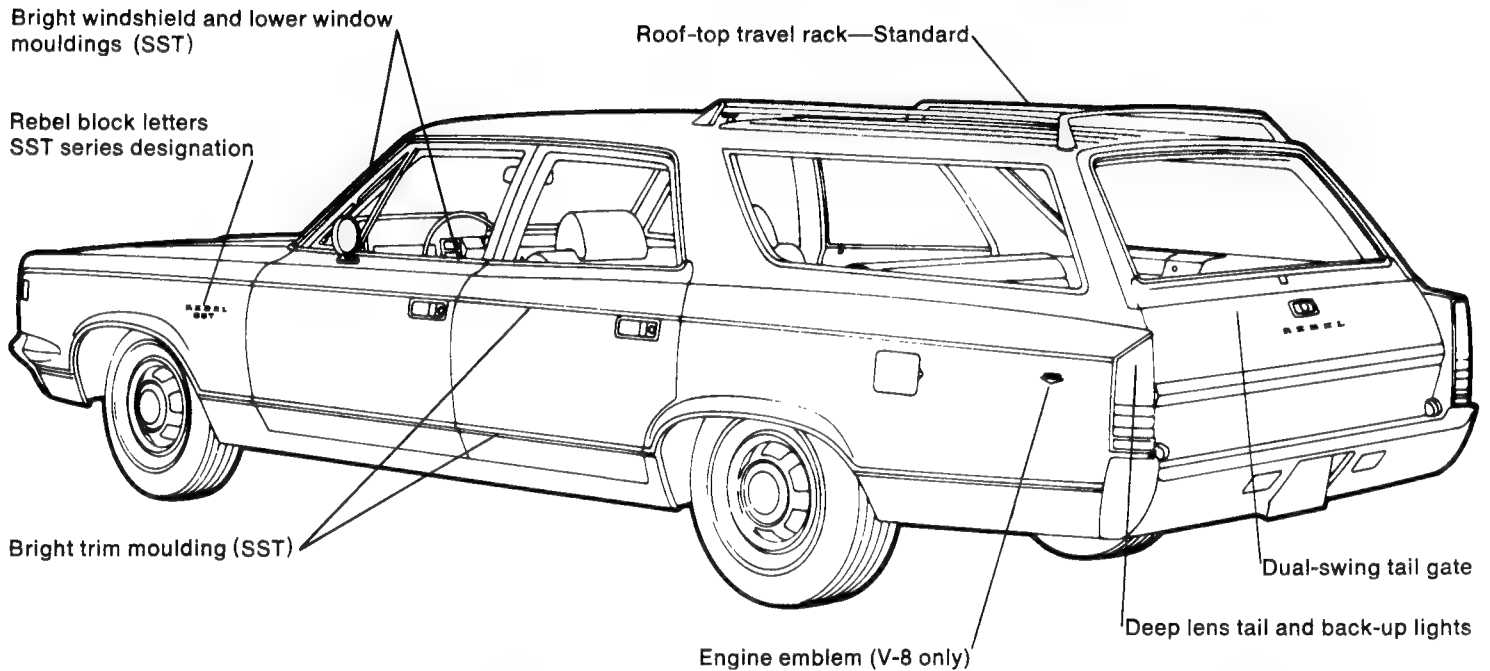

- Black wood applique on instrument panel
- Custom steering wheel
- 100% nylon cut-pile carpet (running change for late 1968)
- Glove box lock and front door dome or "C" pillar switches
- Unique door trim panels with SST nameplate
- Rear armrests for two-door model
- Unique seat trim patterns and cloth materials

1969 Rebel

Series Features

Wagons:

Rebel

New

- Dual-Swing tailgate is standard
- Exterior and interior trim same as other models within series
- Cargo area rubber mat is color keyed in Blue, Brown, Avocado and Black
- Hidden luggage compartment
- Luggage rack remains standard

Rebel SST Over Rebel (base):

- Exterior and interior trim same as other models within series
- Cargo area mat is 100% nylon, cut pile carpet
- Lockable hidden luggage compartment
- Tailgate trim panel

1969 REBEL
Series Features

Wagons:

Rebel (base):

New - Dual-Swing tailgate is standard
Exterior and interior trim same as other models within series
Cargo area rubber mat is color keyed in Blue, Brown, Avocado and Black
Hidden luggage compartment
Luggage rack remains standard

Rebel SST Over Rebel (base):

Exterior and interior trim same as other models within series
Cargo area mat is 100% nylon cut-pile carpet
Lockable hidden luggage compartment

1969 REBEL

Retained Standard Features

Body:

All-welded, single-unit body construction (safe, strong, durable)
("Advanced Unit Construction")
Deep-Dip body rustproofing
Weather-Eye heater
Fresh-air ventilation
Triple coated Lustre-Gard acrylic enamel (14 colors)
Molded cushioned acoustical ceiling
Curved side glass
Injection-molded plastic (ABS) grille and headlight housings
Two-position front door checks
Cigarette lighter
Front ash receiver
Rear ash receivers (except base Rebel Hardtop)
Coil-spring seat construction (solid foam for wagon third seat)
Front seat foam cushion
Dome or side pillar lights
Hidden compartment for station wagons (lock on SST)
Two coat hooks
Extruded aluminum door window frames
on all 4-door models
Neoprene door seals on all hardtops

Mechanical:

Coil springs at all four wheels
Direct-action, independent front suspension with sway bar on
V-8's and wagons
Four-link, trailing arm rear suspension
Hypoid gear rear axle
Self-adjusting brakes with bonded linings
Brake diameter for Six (except wagons) 9"; lining area 153.8
square inches
Brake diameter for V-8 (and wagons) 10"; lining area 167.5
square inches
Standard 4-ply-rating, 2-ply tires; Sixes and V-8's, 7.35 x 14,
7.75 x 14 for wagons (see "Options")
Engine-oil filter, full flow

1969 REBEL

RETAINED STANDARD FEATURES (cont.)

Mechanical: (cont.)

Fuel filters in tank and at carburetor. In-line filter just ahead of carburetor, was in fuel pump

Fuel-tank approximate capacity, 21.5 gallons (19 for 3-seat wagons)

All-Season engine coolant

Anti-smog positive crankcase vent

"Engine-Mod" exhaust emission control system

Automatic choke

Electrical:

Dual horns for SST (one for base Rebel)

Standard 35-amp electronic alternator and sealed transistorized voltage regulator (40-amp with air conditioning)

NEW - "Clear-Power 24" Intercell Battery (was Power-Guard);

50-amp standard on Sixes and "290" V-8's, 60-amp standard on "343" and "390" V-8's, 70-amp optional

Name and type of battery changed but electrical characteristics retained

Dual horizontal head lamps

1969 AMX

Product Highlights

The 1969 AMX is basically unchanged from the 1968 model as it was introduced in mid 1968. However, new features have been added to enhance the sports car image it has deservedly received.

The exterior remains unchanged with the exception that the choice of over-the-top racing stripe colors has been increased from two to five. The stripe remains as a part of the optional "Go" packages (as in 1968) and is not offered separately. Also, 12 exterior colors are offered with 10 of these new. A new styled steel wheel which incorporates a trim ring is offered optionally.

Interior changes are more pronounced. A new 140 MPH speedometer and large face 0-8000 RPM tachometer are standard. A new grab handle above the glove box and a wood-grained applique on the center panel of the instrument panel are standard. "Ventilair" vinyl remains the standard interior, but an additional color is added, Platinum. A new convenience tray between the seats is added (with 4-speed transmission only). New leather seat trim is offered optionally in two colors, Charcoal and Saddle. This leather trim includes seat inserts, bolsters, and seat back side trim. The separately offered headrests, when ordered with the leather seat option, also will be covered in leather.

A new console which incorporates a stowage compartment is included with the optional Shift-Command automatic transmission. A center cushion and armrest are offered as a separate option with the standard 4-speed manual floor shift.

New "Command Air" ventilation system is offered optionally and incorporates the air-conditioning outlets and a high-capacity, three-speed blower motor. Therefore, this system can be easily and less expensively converted to air conditioning at a later date.

A detailed description of the 1969 AMX follows.

1969 AMX

New Styling Features

Exterior:

- NEW - additional colors (3) for over-the-top racing stripe which is included in the optional "Go" packages
- NEW - 10 exterior colors (2 carryover-Red and White)
- NEW - paint treatment on standard "MAG" - STYLED wheel covers

Interior:

- NEW - passenger grab handle above the glove box
- NEW - wood-grained applique on center panel of instrument panel
- NEW - 140 MPH speedometer and 0-8000 RPM large face tachometer
- NEW - door trim panels with bright trim and wood-grain applique
- NEW - 100% nylon, cut-pile carpet (running change for late 1968)
- NEW - wood-grained applique on armrests
- NEW - additional "Ventilair" seat trim color, Platinum
- NEW - bright pedal trim
- NEW - convenience tray between the seats (with 4-speed transmission only)

New Chassis and Mechanical Features

- NEW - suspended accelerator pedal
- NEW - "Guard-Glo," the safer head lamp with a reserve filament that continues to glow when main filaments burn out. A safety feature that helps eliminate the "one-eyed" menace
- NEW - "Clear-Power 24" battery with transparent, light-weight polypropylene case
- NEW - 55-amp alternator (replaces 40-amp) with "All-Season" air conditioning option
- NEW - 6" wheel rim width standard (6 x 14 wheel)

New Optional Equipment

- NEW - leather seat trim offered in Charcoal or Saddle. Leather application includes seat inserts, bolsters and seat back side trim. The separately offered headrests, when ordered with the leather seat option, also will be in leather
- NEW - "Mag" Styled Wheels with chrome trim rings and painted spiders (same wheel is utilized as in 1968 but with different styling)
- NEW - wood-grained console with stowage area is included in Shift-Command automatic transmission option
- NEW - armrest and center cushion (available with 4-speed floor transmission only)
- NEW - "Command Air" ventilation system featuring air-conditioning outlets high-capacity, three-speed blower motor
- NEW - the molded fiberglass headliner (currently used on Javelin, Rebel and Ambassador) replaces the present "Kivar" type headlining. This will be an early running change

1969 AMX

Optional Equipment Changes

Three additional colors are available for the over-the-top racing stripe which is a part of the option "Go" packages. New colors - Red, Blue, Silver; carryover colors - Black and White

Rally-Pak is changed to include a vacuum gauge with the oil/amp gauge -
DEALER INSTALLED

Clock is now available in small instrument panel recess to the left of the speedometer as tachometer moves to large recess to the right of speedometer

Model Availability

Molded ceilings
Padded instrument panel
Break-away front ash receiver
Padded sun visors
Non-glare finish on interior and exterior parts

Controls and Instruments

Energy-absorbing steering column
Deep-dish impact absorbing steering wheel
Safety-shaped instrument control knobs
Safety automatic transmission shift pattern
Safety-styled instrument panel layout

Brakes and Wheels

Double-safety brake system with self-adjusting feature
Brake system warning light
Mechanical stoplight switch
Corrosion-resistant brake lines and fittings
Safety-rim wheels
Tread-wear indicators molded into tire tread

Seating and Seat Belts

Seat belts for all seating positions:
a. Standard for all seating positions
b. Two front seat belts retractable
Two front shoulder belts
Safety-seat and shoulder-belt anchorages
Safety-seat anchorages
Automatic lock with manual release folding front seats
Front seat headrests

1969 AMX

"SAFE-COMMAND" SAFETY FEATURES (cont.)

Locks and Door Handles

- High-strength door locks
- "Pre-Set-Impulse" door locking system
- Safety-shaped interior door handles
- Flush-contoured outside door handles
- Two key locking system

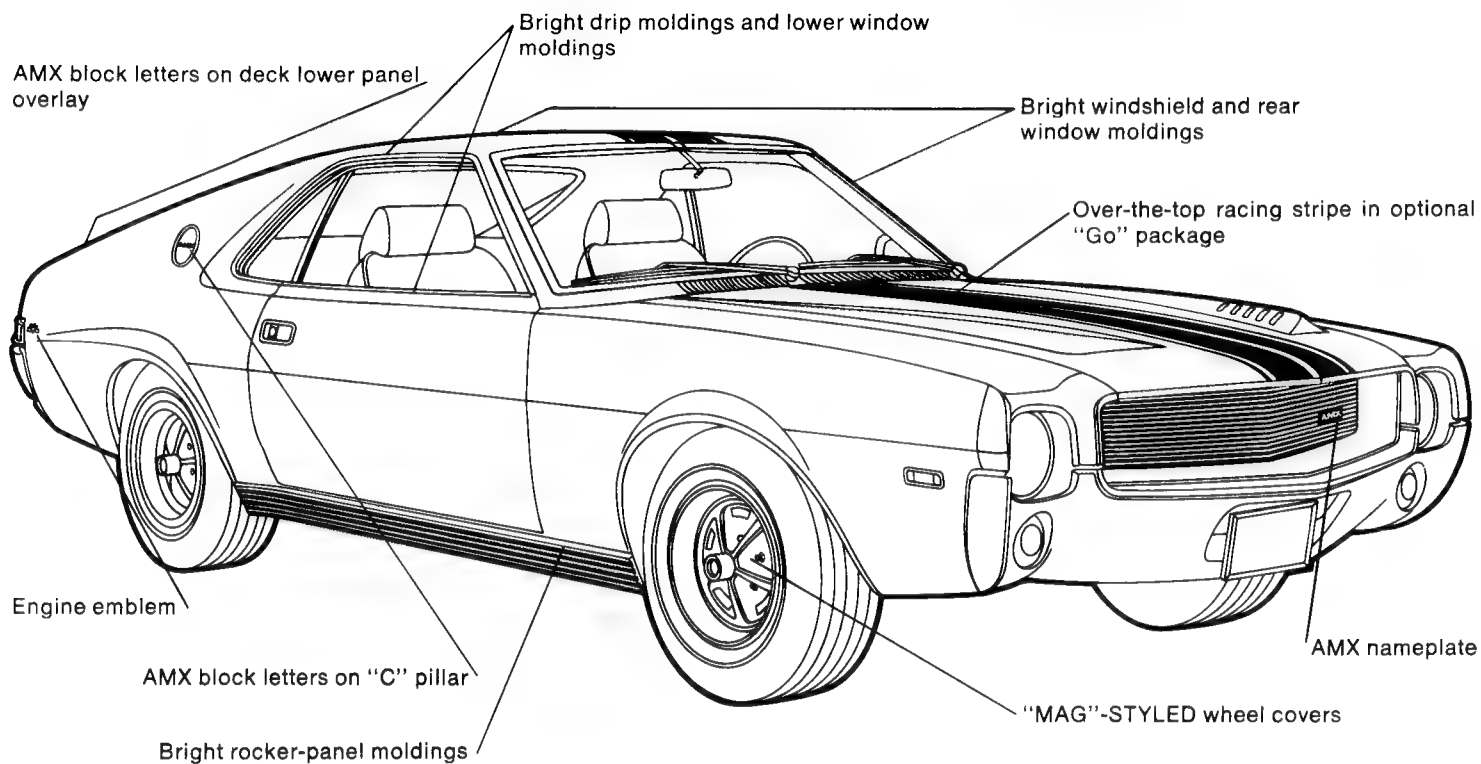

Accessories and Equipment

- 4-way hazard warning signals
- Lane changer feature for turn signals
- Safety vanity mirror (opt.)
- Automatic back-up lights
- Shift-command for automatic or manual operation on automatic transmission (opt.)
- Day/Night inside rearview mirror with twin pivots and protected edges
- Rearview mirror, exterior, left side
- Windshield washers - manual (electric opt.)
- Non-glare windshield wipers
- Vacuum power booster windshield wiper motors (electrical opt.)
- Defrosters and defoggers
- Side-of-Car safety markers, front and rear
- "Guard-Glo" head lamps
- Parking lights illuminated with headlights

1969 JAVELIN

Product Highlights

The 1969 Javelin features a new Twin-Venturi, injection-molded ABS grille which utilizes the new bull's-eye emblem of the Javelin. This emblem is also used with a small Javelin script nameplate on both "C" pillars. A new racing stripe of two-color design (two wide outside stripes in the major color are accented by a narrow center stripe of a second color) will be offered in five color combinations. This stripe will be offered as a separate option (deleted as a component of the "Go" package). The "Go" packages will feature twin hood scoops of almost full hood length.

A new floor-mounted shift mechanism is standard with the three-speed synchromesh transmission and the standard 232 CID engine or optional 290 CID 200 HP engine. Column shift mechanism is no longer available with the above engine-transmission combinations as of 1969.

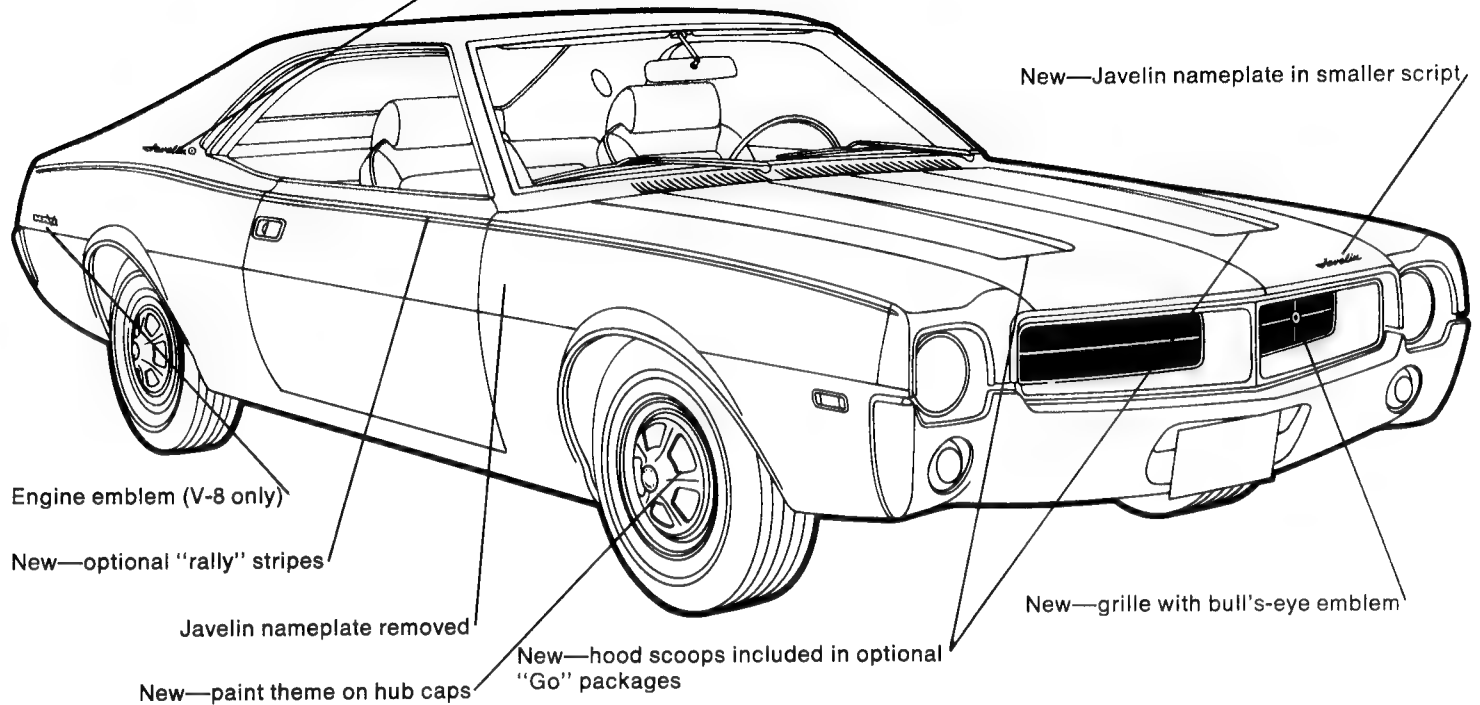

A new grab handle is added to the instrument panel just above the glove box. The SST also gets a wood-grained applique over the center portion of the panel and on the front door armrests. A convenience tray between the seats and bright pedal trim are also added to the SST. A "Command Air" instrument panel ventilation system will be offered optionally to enhance the "flo-thru" system ("flo-thru" ventilation remains standard in all Javelins). The "Command Air" system incorporates the air conditioning outlets and a high-capacity, three-speed blower motor and therefore, can be easily and less expensively converted to air conditioning at a later date. A new console featuring a stowage compartment and an ash receiver and courtesy light for the rear compartment will also be offered optionally. This console is available with column shift or automatic console-mounted shift. The interior trim choices are increased with Javelin now offering two standard colors in vinyl and the SST offering five cloth choices (Blue and Platinum are added) and five "Ventilair" vinyl choices (Blue and Platinum are added). A new center armrest and cushion will be offered optionally not available with console. Further new options are detailed in that section.

A detailed description of the 1969 Javelin follows.

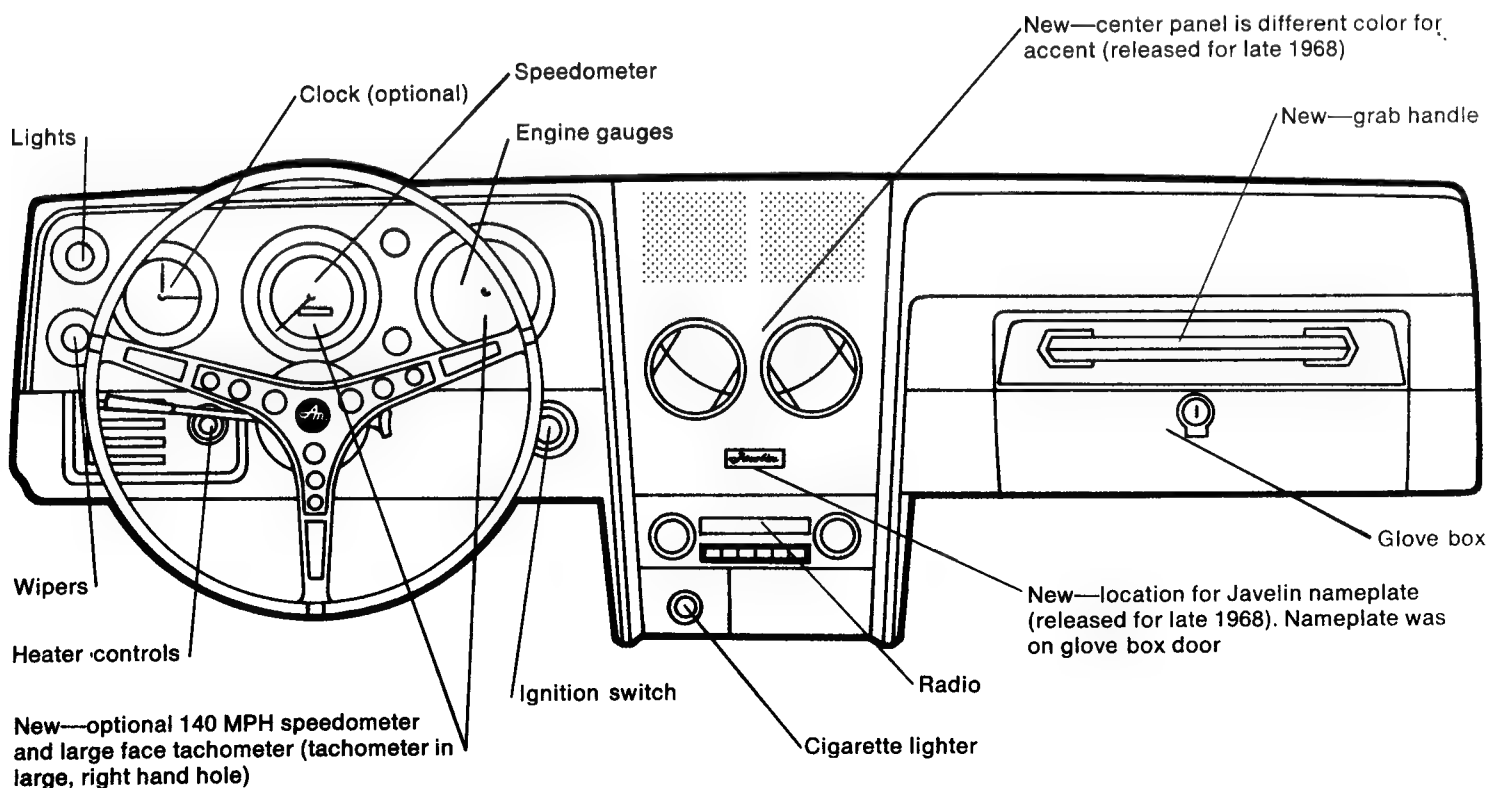

1969 Javelin

New Exterior Styling Features

New—bull's-eye emblem & Javelin script

New Interior Styling Features

1969 JAVELIN

New Exterior Styling Features

- NEW - bull's-eye emblem on grille and "C" pillar
- NEW - Javelin nameplate in script on hood, "C" pillar and lower deck panel overlay
- NEW - 10 Exterior paint colors (plus two carryover colors)
- NEW - paint theme on hub caps and wheel covers

New Interior Styling Features

- NEW - grab handle on dash above glove box door
- NEW - accent colored center panel on instrument panel (released for late 1968 model)
- NEW - location for Javelin nameplate. Now on center panel (released for late 1968 model)
- NEW - door trim panels with deeper dielectric pattern for more padded look
- NEW - seat trim designs and cloth patterns (vinyl carryover)

New Chassis and Mechanical Features

- NEW - floor shift mechanism standard with base engine (232 CID, 145 HP); also with optional base V-8 (290 CID, 200 HP)
- NEW - "Guard-Glo," the safer head lamp with a reserve filament that continues to glow when main filaments burn out. A safety feature that helps eliminate the "one-eyed" menace
- NEW - "Clear-Power 24" battery with transparent, light-weight polypropylene case
- NEW - suspended accelerator pedal
- NEW - 55-amp alternator (replaces 40-amp) with "All-Season" air-conditioning option

New Optional Equipment

- NEW - 14" wheels with 6" rims (standard with "Go" Package) optional with V-8's
- NEW - two color rally stripe. Stripe is composed of two wide outer stripes of a base color and a narrow center stripe of an accent color. Stripe is now a straight option and is no longer included in "Go" packages
- NEW - hood scoops in flat black are now a part of the "Go" packages which remain as in 1968 except for the replacement of the stripe with the scoops. Also 6" rim width wheels become standard with "Go" package
- NEW - center armrest and center cushion (not available with console)
- NEW - wood-grained console is available with column or automatic floor shift (mandatory with the latter). Console features stowage, a rear seat courtesy light and a rear seat ash receiver

1969 JAVELINNEW OPTIONAL EQUIPMENT (cont.)

- NEW - "MAG"-STYLED wheels. Similar to the 1968 chrome wheels but featuring a new paint theme and chrome trim rings
- NEW - 140 MPH speedometer and large face tachometer. Not available separately and available with V-8 only
- NEW - "Command Air" ventilation system featuring air-conditioning instrument panel outlets and high-capacity, three-speed blower motor

Optional Equipment Changes

- NEW - paint theme on wheel covers
290 CID, 200 HP engine is no longer available with 4-speed transmission

No optional interior trim is available on the base Javelin because an additional trim was made standard on this model

- NEW - hood scoops replace rally stripe in "Go" package as indicated above
Both "Go" package and stripe can be ordered

Rally-Pak is changed to include a vacuum gauge or a clock -

1969 JAVELINNew Safety Features

Redesigned radio push buttons have larger corner radii to reduce head impact hazard

Two front seat headrests become standard on January 1, 1969

"SAFE-COMMAND" Safety Features
(Standard unless otherwise noted)

Construction

Energy-absorbing front end structural design
High-strength thick laminate windshield
Tempered safety glass, side and rear windows
Extra-strength door hinges
Padded pillars and roof headers
Molded ceilings
Padded instrument panel
Break-away front ash receivers
Padded sun visors
Non-glare finish on interior and exterior parts

Controls and Instruments

Energy-absorbing steering column
Deep-dish impact absorbing steering wheel
Safety-shaped instrument control knobs
Safety automatic transmission shift pattern
Safety-styled instrument panel layout

Brakes and Wheels

Double-safety brake system with self-adjusting feature
Brake system warning light
Mechanical stoplight switch

1969 JAVELIN

"SAFE-COMMAND" SAFETY FEATURES (cont.)

Brakes and Wheels (cont.)

Corrosion-resistant brake lines and fittings
Safety-rim wheels
Tread-wear indicators molded into tire tread

Seating and Seat Belts

Seat belts for all seating positions:
a. Standard for all seating positions
b. Two front seat belts retractable
Two front shoulder belts
Rear shoulder-belt anchors installed
Safety-seat and shoulder-belt anchorages
Safety-seat anchorages
Automatic lock with manual release for folding front seats
Front seat headrests
Padded front seat back

Locks and Door Handles

High-strength door locks
"Pre-Set-Impulse" front door locking system
Safety-shaped interior door handles
Flush-contoured outside door handles
Two key locking system

Accessories and Equipment

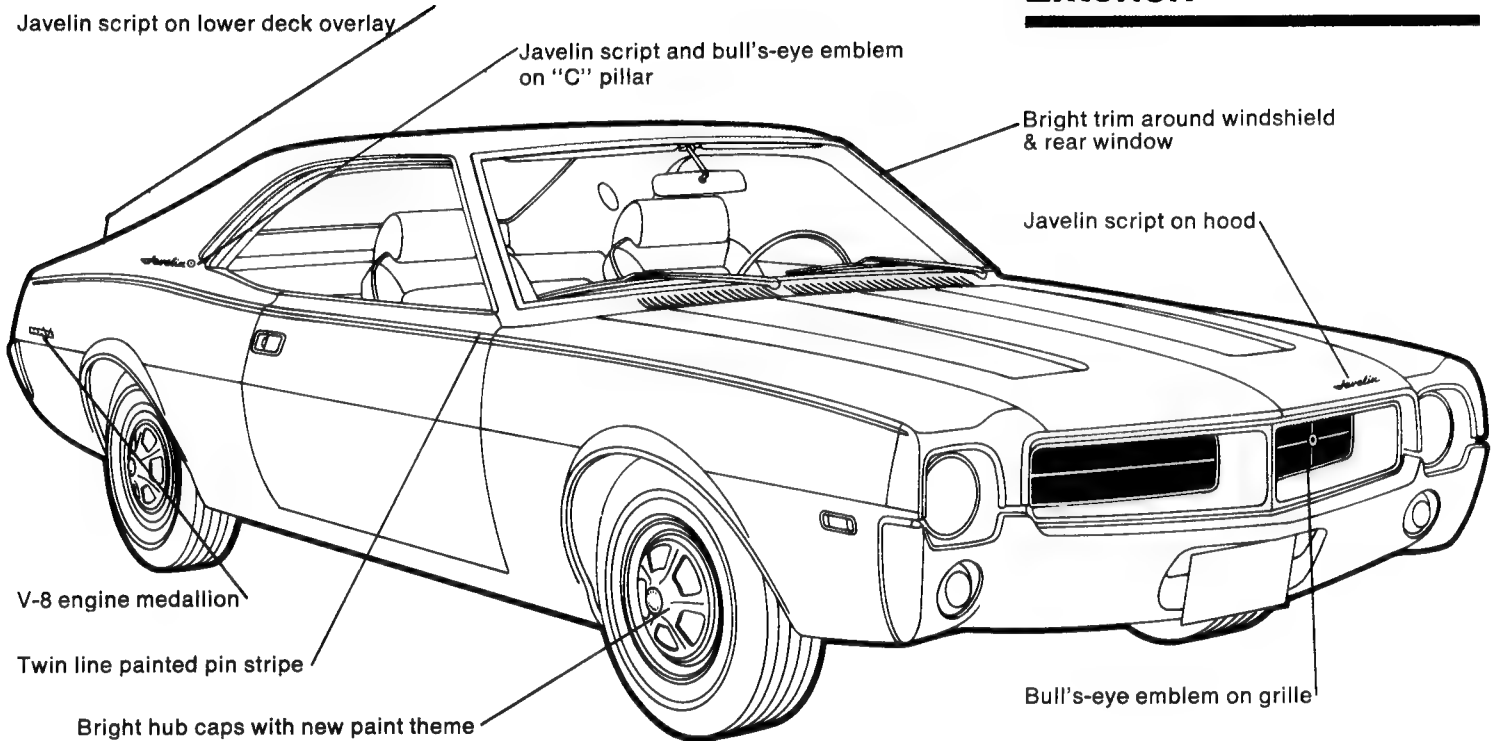

4-way hazard warning signals
Lane changer feature for turn signals
Safety vanity mirror (opt.)
Automatic back-up lights
Shift-command for automatic or manual operation on automatic transmission (opt.)
Day/Night inside rearview mirror with twin pivots and protected edges
Rearview mirror, exterior, left side
Windshield washers - manual (electric opt.)
Non-glare windshield wipers
Vacuum power booster windshield wiper motors (electrical opt.)
Defrosters and defoggers
Side-of-Car safety markers, front and rear
"Guard-Glo" head lamps
Parking lights illuminated with headlights

SST emblem on front fenders to the rear of the wheelhouse openings

Interior:

NEW - wood-grain applique on instrument panel

NEW - door trim panels with wood-grain applique, bright trim and SST nameplates

NEW - wood-grain applique on armrests

NEW - seat trim patterns and new cloth designs

NEW - interior color choices in five colors in either cloth or vinyl (two more colors than in 1968)

NEW - between seat convenience tray

NEW - bright pedal trim

Reclining bucket seats

Wood-grained sports steering wheel

1969 JAVELIN

Retained Standard Features

Body:

All-welded, single-unit body construction (safe, strong, durable)
("Advanced Unit Construction")
Deep-Dip body rustproofing
Weather-Eye heater
Fresh-air "flo-thru" ventilation
Triple coated Lustre-Gard acrylic enamel (12 colors)
Dual paint stripes
Molded cushioned acoustical ceiling
Padded "A" pillars and roof headers
Curved "ventless" side glass
Injection-molded plastic grille and nylon headlight housings
Two position door checks
Front armrests
Cigarette lighter
Front ash receiver
Full-width carpeting
Formed-wire seat construction
Front seat foam cushion
Bucket seats
Compartment lights
Bin-type glove box with lock
Two coat hooks

Mechanical:

Direct-action, independent coil-spring front suspension with sway bar on V-8's
Rear suspension with semi-elliptical leaf springs
Hypoid gear rear axle
Self-adjusting brakes with bonded linings
Brake diameter for Sixes 9"; lining area 153.8 square inches
Brake diameter for V-8's 10"; lining area 167.5 square inches
Standard 4-ply-rating, 2-ply tires: 6.95 x 14 on Sixes, 7.53 x 14 on V-8's
Engine-oil filter, full flow
Fuel filters in tank and at carburetor-NEW-in-line filter just ahead of
carburetor, was in fuel pump
Fuel-tank approximate capacity, 19 gallons
All-Season engine coolant
Anti-smog positive crankcase vent
"Engine-Mod" exhaust emission control system ("Air-Guard" on V-8's with
manual transmission)
Automatic choke
Wheel discs standard on SST

1969 JAVELIN

RETAINED STANDARD FEATURES (cont.)

Electrical:

Dual horns

Standard 35-amp electronic alternator and sealed transistorized voltage regulator
(NEW - 55-amp with air conditioning)

NEW - "Clear-Power 24" Intercell Battery (was Power-Guard); 50-amp standard on Sixes and "290" V-8's, 60-amp standard on "343" and "390" V-8's, 70-amp optional. Name and type of battery changed but electrical characteristics retained

1969 RAMBLER

Product Highlights

The Rambler name will be given to the former American series of past years bringing to this line of cars all the tradition of quality and economy for which the Rambler name is famous. The name American will not be used with the series for 1969. The 1969 Rambler will continue to feature compact exterior dimensions with ample interior room and performance.

The 1969 Rambler will be identifiable with a new triangular shaped Red, White and Blue medallion mounted on the leading edge of the front hood and a new Red, White and Blue bar molding on the front fenders.

Progressive design improvements have been added as perfected and styling changes have been minimized to give this series a continuity in styling that makes it wondrously free from maintenance problems and depreciation expense. The Rambler is an excellently balanced vehicle with performance and economy, interior room and comfort, all pleasingly styled and agreeably priced.

The 1969 Rambler will incorporate the across the line chassis changes of parking lights on with headlights, new accelerator cable linkage and suspended accelerator pedal.

1969 RAMBLER

New Exterior Styling Features

- NEW - triangle, tri-color hood ornament
- NEW - exterior paint colors
- NEW - tri-color bar molding on front fenders

New Interior Styling Features

- NEW - additional trim color added to Rambler (base)
- NEW - door trim panels with deeper dielectric pattern for more padded look
- NEW - seat trim designs and cloth patterns

New Chassis And Mechanical Features

- NEW - "Guard-Glo," the safer head lamp with a reserve filament that continues to glow when main filaments burn out. A safety feature that helps eliminate the "one-eyed" menace
- NEW - "Clear-Power 24" battery with transparent, light-weight polypropylene case
- NEW - parking and headlights on together
- NEW - suspended accelerator pedal and cable linkage
- NEW - 55-amp alternator (replaces 40-amp) with "All-Season" air-conditioning option

New Optional Equipment

- NEW - Cool-Air air-conditioning price package which includes factory "All-Season" air conditioning, power steering and solex glass (all windows) will be offered

Optional Equipment Changes

- Turbo-Cast wheel covers and wire-wheel covers are dropped as a factory option, retained as a dealer option
- Disc brakes are dropped, were V-8 only
- Tachometer is dropped as a factory option, retained as a dealer option
- 290 CID, 200 HP engine is dropped on the Rambler (base); 3-speed manual transmission is dropped across the Rambler series on this engine
- 290 CID, 225 HP engine is available in the Rogue only

1969

GENERAL

Chassis New Features & Changes

NEW Features:

- NEW - suspended accelerator pedal and cable accelerator linkage in all series will provide a more uncluttered appearance and smoother operation
- NEW - "Clear-Power 24" battery with translucent polypropylene case. Fluid level can be checked without removing the caps - the "three-in-one" caps continue. Also, battery is now slightly smaller and lighter weight. Electrical characteristics remain the same as in 1968
- NEW - "Guard-Glo," the safer head lamp with a reserve filament that continues to glow when main filaments burn out. A safety feature that helps eliminate the "one-eyed" menace
- NEW - parking lights remain on with head lamps
- NEW - three additional fusible links, for a total of four, provide more protection for electrical components (main horn wiring, battery feed, accessory and ignition)
- NEW - in-line fuel filter is put in gas line just in front of carburetor (old fuel pump filter is dropped)
- NEW - crankshaft front seals of the Hydro-Dynamic type provide increased reliability
- NEW - rear axle seals provide increased reliability
- NEW - optional three-speed electric windshield wiper system replaces the variable system in Rebel and Ambassador series. Rambler, Javelin and AMX retain variable-electric wipers as optional
- NEW - plastic door edge guards (in clear plastic and about 6" long) are standard for all series
- NEW - the word "Safe-Command" will appear on the wide brake pedal of all models on which bright pedal trim is standard
- NEW - aluminized exhaust system; Ceramic-Armored system is dropped. New single pipe system on Rebel and Ambassador V-8's is redesigned to increase the engine's ability to breath
- NEW - positive acting linkage between key cylinder and lock mechanism on AMX, Javelin, Rebel and Ambassador front doors. This will be an early running change

1969 GENERAL

CHASSIS NEW FEATURES & CHANGES (cont.)

Changes:

Four-speed floor transmission is dropped for 290 cu. in., 200 HP engines in all series and is dropped completely for Ambassador and Rebel

Red-line wide oval tires (optional) all become fiberglass belted ("Polyglas" tires). AMX retains black-wall fiberglass-belted tires ("Polyglas" tires) as standard

The bed feature of the individual reclining seats in the 4-door models of Rebel and Ambassador is no longer available. This feature is no longer available anywhere in the line

1969 AMERICAN MOTORS
"SAFE-COMMAND" Safety Features
(Standard unless otherwise noted)

These features apply to all American Motors cars.

Construction

Energy-absorbing front-end structural design
High-strength thick laminate windshield
Tempered safety glass, side and rear windows
Extra-strength door hinges
Molded ceilings
Padded instrument panel
Break-away front ash receivers
Recessed rear ash receiver
Padded sun visors
Non-glare finish on interior and exterior parts

Controls and Instruments

Energy-absorbing steering column
Deep-dish impact absorbing steering wheel
Safety-shaped instrument control knobs
Safety automatic transmission shift pattern
Safety-styled instrument panel layout

Brakes and Wheels

Double safety brake system with self-adjusting feature
Brake system warning light
Mechanical stoplight switch
Corrosion-resistant brake lines and fittings
Safety-rim wheels
Tread-wear indicators molded into tire tread

Seating and Seat Belts

Seat belts for all seating positions:
a. Standard for all seating positions
b. Two front seat belts retractable
Two front shoulder belts
Rear shoulder-belt anchors, installed
Safety-seat and shoulder-belt anchorages
Automatic lock with manual release folding front seats on 2-door models

1969 AMERICAN MOTORS

"SAFE-COMMAND" SAFETY FEATURES (cont.)

Seating and Seat Belts (cont.)

Folding rear-seat-back latches for wagons
Front seat headrests
Padded front seat back

Locks and Door Handles

High-strength door locks
Safety-shaped interior door handles
Two key locking system

Accessories and Equipment

4-way hazard warning signals
Lane changer feature for turn signals
Back-up lights
Day/Nite inside rearview mirror with twin pivots and protected edges
Rearview mirror, exterior, left side
Windshield washers
Non-glare windshield wipers
Defrosters and defoggers
Side-of-Car safety markers, front and rear
"Guard-Glo" head lamps
Parking lights illuminated with headlights

General

The 1969 tape cartridge (included with the optional Stereo Tape Player) will include the safety message, "Is your seat belt fastened?" This message will appear between the second and third tracks only

1969 AMERICAN MOTORS
RETAINED STANDARD FEATURES

These features apply to all American Motors cars.

"Advanced Unit Construction" (exclusive uniside, sedans and wagons)
(impact absorption, front end)

"Deep-Dip" Rustproofing

HISTORY OF PRODUCT CHANGES

1968: Two all-new car lines added, Javelin and AMX, and one dropped, Marlin, for a total of 5 car lines with 24 models, two less than in 1967.

Convertibles dropped in Rambler American and Ambassador lines while a low-line convertible was added to the Rebel line. Low-line hardtops were added to Rebel and Ambassador series and a new Ambassador SST 4-door sedan introduced.

Series nomenclature modified to change low-line series identification to series name for Rambler and Ambassador. Mid-line series retain previous year names, but high-line models became Rogue for Rambler American and SST for all others.

All-new Javelin sporty 2-door hardtop introduced in series name and SST model both on 109" wheelbase.

Safety certification included on manufacturer nameplate.

Following safety oriented features introduced to meet or exceed Federal Safety Standards:

- New side-of-car safety markers
- Seat belts for all seating locations
- Shoulder belts for two in front seat (except convertible)
- Rear shoulder-belt anchors
- Folding front seat position lock
- Safety-shaped door armrests
- Safety-styled interior door handles and control knobs
- Safety-padded and styled instrument panel
- Safety coat hooks
- Non-glare interior trim finish
- Inside rearview mirror with twin pivots, protected edges
- Outside rearview mirror relocated
- New door locks
- New mechanical stoplight switch
- New body structure changes for greater impact absorption
- Smooth contoured outside door handles (except American)
- New padded "A" pillars and roof side headers on Javelin and AMX

Frameless side window glass (Javelin and AMX).

New "flo-thru" fresh-air ventilation introduced (Javelin and AMX).

Air conditioning made standard on Ambassador series, a U.S.-built car exclusive.

HISTORY OF PRODUCT CHANGES (cont.)

1968: Shift-Command available with column shift.

All synchromesh 3-speed manual transmission with addition of synchronized first gear (except 199 CID engine).

"Go" package high-performance options offered for Javelin and AMX.

Shift-Command becomes available with self-adjusting front clutch band.

One-piece injection-molded instrument panel introduced on Javelin and AMX, an industry first.

Front suspension camber, caster, toe-in adjustments moved to lower control arm for easier accessibility.

Formed-wire seat construction used in Javelin and AMX.

New exclusive "Pre-Set-Impulse" front-door locking system introduced (all except American).

Three-in-one vent caps used on Power-Guard "24" Intercell battery.

Exhaust Emission Control required on all domestic cars. "Engine-Mod" system replaces "Air-Guard" air pump system on all engines but V-8's with manual transmission. "Engine-Mod" system incorporates thermostatically-controlled carburetor air cleaner.

September, 1967, American Motors establishes Performance Activities Department to enter competitive performance competition.

Rambler American Rogue wins class in Pure Oil Endurance Competition.

Javelin Quick-Ratio fast steering option offered.

AMX two-seat sports coupe introduced on a 97" wheelbase with V-8 engine and high-performance equipment standard (1968-1/2).

AMX first in industry to have fiberglass-belted polyester tires (Goodyear trade name Polyglas) standard (1968-1/2).

AMX V-8, 390 cubic inch engine introduced as high-performance option (Javelin and AMX) (1968-1/2).

AMX establishes 106 American National and International speed and endurance records (1968-1/2).

"Space-Saver" collapsible spare tire standard on AMX, optional on Javelin (1968-1/2).

HISTORY OF PRODUCT CHANGES (cont.)

1967: All-new product for Rambler Rebel (was called Rambler "Classic"). . .
Wheelbase increased from 112" to 114", length from 195" to 197"
(197" wagons).

All-new product for Ambassador . . .
Wheelbase increased from 116" to 118", length from 200" to 202.5"
(203" wagons).

All-new product for Marlin . . .
Wheelbase increased from 112" to 118", length from 195" to 201.5".

Hardtop-styled 2-Door Sports Sedan for Rebel and Ambassador.

Rebel and Ambassador convertibles have 6-passenger room, fast roof line.

More interior room for passengers and cargo in Rebel, Ambassador and
Marlin.

Rambler American basically same with minor refinements.

343 CID V-8 for all models.

Rebel and Ambassador 3-seat wagons have spare tire.

High-back bucket seats available for top-line models.

8-Track Stereo Tape Player Option (except American).

Wide-Profile, Red-Line, Hi-Performance Tires, V-8 option (except wagons).

Simulated wood-grain "sports" steering wheel option.

5-Year/50,000-Mile Warranty.

Numerous safety features added for all cars:

Warning Light for Double-Safety Brake System

Retractable Front-Seat Belts, Rear-Seat Belts...Shoulder-Belt Anchors

4-Way Hazard Warning Signals...Lane-Changer Turn Signals

Energy-Absorbing Safety Steering Column...3-Spoke 16" Wheel

Double-Pivot, Day/Night Inside Mirror...Tread-Wear Indicator for Tires

Dual exhaust system option for 343 V-8's (Rebel, Ambassador & Marlin)(1967-1/2)

Side-panel two tones for Rebel 770 and Ambassador 990 wagons (1967-1/2).

Limited-Edition "Westerner, Mariner and Briarcliff" Rebel Wagons (1967-1/2).

Hi-Performance Kits available through dealers (1967-1/2).

HISTORY OF PRODUCT CHANGES (cont.)

1966: All-new styling with longer length (177" to 181") for American.

All-new hardtop roof styling for Classic and Ambassador.

All-new wagon roof and tailgate for Classic and Ambassador
(and longer length).

Rogue, Rebel and DPL for top-line hardtops.

Torque-Command "199" standard on all Americans.

Torque-Command "232" standard on all Classics.

Flexible-Glass Rear Window for Classic and Ambassador convertible.

Power-Top made standard on American.

Cruise-Command auto. speed control (optional, except American).

4-Speed Transmission for V-8's (optional), console shift
(Twin-Stick cancelled).

"Safety Package" made standard.

"Air-Guard" System for California cars (optional).

Self-Adjusting Clutch for 6's (except American).

"Handling Package," optional for American and Classic 6.

Micro-Poise Wheel Balancing.

4-Way Hazard Warning Signals (optional).

Lower-priced Marlin with major equipment changes.

Improved pricing structure with elimination of 330 and 660 models.

Vinyl-Covered Roof optional for Marlin (was hardtops only).

All-new TYPHOON 290 V-8 engine introduced for Rambler American (1966-1/2).

4-Speed Floor Shift for American V-8 (1966-1/2).

HISTORY OF PRODUCT CHANGES (cont.)

1965: All-new Classic with new styling and longer length (190" to 195").

All-new Ambassador with new styling, longer wheelbase (112" to 116") and longer length (190" to 200"). Distinctive look over Classic.

All-new Convertible added to Classic and Ambassador.

All-new Marlin fastback introduced as 1965-1/2 model.

Torque-Command 6 standard on all Classics and Ambassadors.

Torque-Command 6 (232) optional and American.

Power-Disc Brakes (optional, except American) (standard on Marlin).

Shift-Command for 6's (was V-8 only, optional).

Vinyl-Covered Roof for all hardtops as 1965-1/2 option.

"Lustre-Gard" acrylic enamel for all colors (was four colors only).

7-Position Reclining Seat (optional, standard on "H").

Alternator made standard on American (was Classic and Ambassador only).

Extruded Aluminum Grilles for all models.

Ball-Bearing Ash Trays for all models (intro. on 1964, American).

1,000-Mile Inspection Eliminated, initial oil change now 4,000 miles.

New \$42-million plant in full operation building new Torque-Command 6's (1964-1/2 intro.) and rear axles.

Heater made standard equipment.

HISTORY OF PRODUCT CHANGES (cont.)

1964: All-new car and styling on longer wheelbase (100" to 106") for American.

6-Passenger Room for American (drop 2-dr. wagon).

Curved Side Glass for American.

All-new hardtop for Classic and Ambassador.

All-new "Torque-Command 6" introduced in 1964-1/2 on new Classic
"Typhoon" Hardtop.

Shift-Command Transmission (option for V-8's).

One-Piece Uniside for American (was Classic and Ambassador only).

Acrylic Enamel introduced in four colors.

Front Suspension for American.

32,000 (or 3-year) Chassis Lubrication for American (was Classic and
Ambassador only).

Power Steering System (optional).

Cast-Iron '6 made standard on Classic (alum-'6 cancelled).

Alternator made standard on Classic 6 (was V-8 only and A.C.).

AM/FM Radio for Classic and Ambassador (optional).

Adjust-O-Tilt Steering Wheel for Classic and Ambassador (optional).

Front-Seat Belts, standard January 1, 1964 (Retractable Belts optional).

Four Convertible Top Colors for American (was only two).

HISTORY OF PRODUCT CHANGES (cont.)

1963: "24-24" New Car Warranty.

All-new car and styling on longer wheelbase (108" to 112" for Classic and Ambassador).

Minor styling changes for American.

All-new hardtop for American.

Laminated "Foam-n-Fiber" Ceiling for American Hardtop.

All-new model identification (220 up to 990).

Curved Side Glass for Classic and Ambassador.

287 Cu. In. V-8 for 1963-1/2 Classic.

One-Piece Uniside for Classic and Ambassador.

Twin-Stick Floor Shift (optional).

E-Stick Transmission, new option for Classic (was American only).

Lever control for automatic transmission replaces push buttons on Classic and Ambassador.

Alternator made standard on V-8's (& A.C. 6's).

More cargo room for Classic-Ambassador wagons.

More trunk room for Classic-Ambassador sedans.

HISTORY OF PRODUCT CHANGES (cont.)

1958: Classic and Ambassador are all new cars.
100" Wheelbase American 2-Door Sedan introduced.
"327" V-8 for Ambassador (1957-1/2 Rebel and Ambassador).
"250" V-8 for Classic (1966-1/2 intro.).
Deep-Dip Rustproofing.
Borg-Warner "Flash-O-Matic" automatic replaces Hydra-Matic (1957-1/2).
Twin-Grip Differential optional for V-8's.

1959: Minor styling changes for Classic and Ambassador.
2-Door Wagon added to American line.
Individually-Adjustable Seats (optional).
Headrests (optional).
Air-Coil Ride Suspension, Classic and Ambassador (optional, 1959-1/2).

1960: Major styling changes for Classic and Ambassador.
4-Door Sedan added to American line.
American "Custom" model added with OHV engine (1960-1/2).
Side-Hinged Tailgate, Classic and Ambassador 3-seat wagon.
3-rd. Seat Option, Classic and Ambassador.
Bonded Brake Linings.
Twin-Grip Differential optional for 6's (was V-8 only).

1961: Minor styling changes for Classic and Ambassador.
American gets all-new styling on outer-skin.
Convertible and 4-Door Wagon added to American line.
"Custom 400" models for Classic, Ambassador, American (1961-1/2).
Wide Bucket Seats for "Custom 400" models (1961-1/2).
Ceramic-Armored Exhaust System.
Molded Ceilings, Classic and Ambassador.
Lock-O-Matic Door Locks, Classic and Ambassador (optional).

1962: Major styling changes for Classic and Ambassador (both 108" wheelbase).
2-Door Sedan added to Classic and Ambassador.
Minor styling changes for American.
32,000 (or 3-year) Chassis Lubrication on Classic and Ambassador.
Double-Safety Brake System on all models.
Self-Adjusting Brakes on all models.
Reinforced Steel Rocker Panels.
Power Windows (100% option).
Better battery on all models.
Improved model for 6's).
Lowest price for American).
